

Mr. AbdulAziz A. Al-Mahmoud

AbdulAziz A. Al-Mahmoud received his B.Sc. from Qatar University in Electrical Engineering and his M.Sc. from Cardiff University in Electrical Energy Systems. He started his career in 2007 with the Qatar General Electricity and Water Corporation (KAHRAMAA), where he worked in various fields such as electricity transmission network planning, system operations and control, and long-term power and water generation planning, as well as business development and R&D. He has been seconded to the Planning and Statistics Authority since September 2022 to work on the third National Development Strategy (NDS3). His interests include energy storage, renewable energy, smart grids, digitalization, and strategic planning.
