SESSION 5: OPENDOSM: BUILDING A CITIZEN DATA CENTRIC CULTURE

By:

Dr. Mohd Uzir Mahidin

Chief Statistician Malaysia

Vice Chair of the 12th OIC Statistical Commission (StatsCOM)

29-30 October 2023

Doha Data Forum for Inclusive Data Ecosystems and Effective
Decision Making, State of Qatar

Presentation Outline

01

Introduction

02

Data-Driven Culture

03

Data-Driven in Zakat and Waqf Management

04

Towards a Citizen Data-Centric Culture

05

Bridging the Gap: Communicating Statistics for Everyone

06

Innovate, Collaborate, Transform: The Journey of Open Data in Malaysia

07

What's Next?

Department of Statistics, Malaysia (DOSM) as the National Statistics Provider

- DOSM was established in 1949 and produces statistics on the external trade and estate agriculture.
- **Role:** to provide quality, user-oriented and timely information for policy making and national development.
- **Function:** to collect, interpret and disseminate statistics under the Statistics Act 1965 (Revised 1989) and Census Act 1960 (Revised-1969) to various stakeholders.

Strengthening the National Statistical System

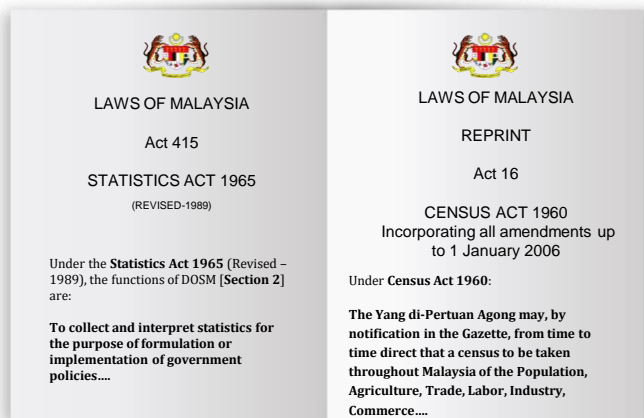

Strengthening the National Statistical System is crucial for informed decision-making and effective policy implementation. DOSM has outline strategies to strengthen the National Statistical System in Malaysia, among others are:

- Establishment of National Statistics and Data Council (NSDC)
- Appointment of Chief Data Officer (CDO)
- Amendments of Statistics Act 1965 (Revised 1989)
- Establishment of National Big Data Analytic Centre (NBDAC)
- Establishment of Change Management Office (CMO)

Towards a Citizen Data-Centric Culture

While data-centric culture varies across countries worldwide and becoming increasingly important in many organizations. Based on guide towards data driven culture and Data-Driven Maturity Model, there are five (5) stages in this area which each stage criteria are as follows:

- **Reporting:** Visualise existing data and create the foundation analytical future;
- **Analysing:** Drive deeper into the data to achieve insight into why things happened;
- **Optimizing:** Optimize business processes by integrating analytical insight;
- **Empowering:** Empower employee and products with data and analytical capabilities; and
- **Innovating:** Use data and experiment to innovate in products and transform the organisation.

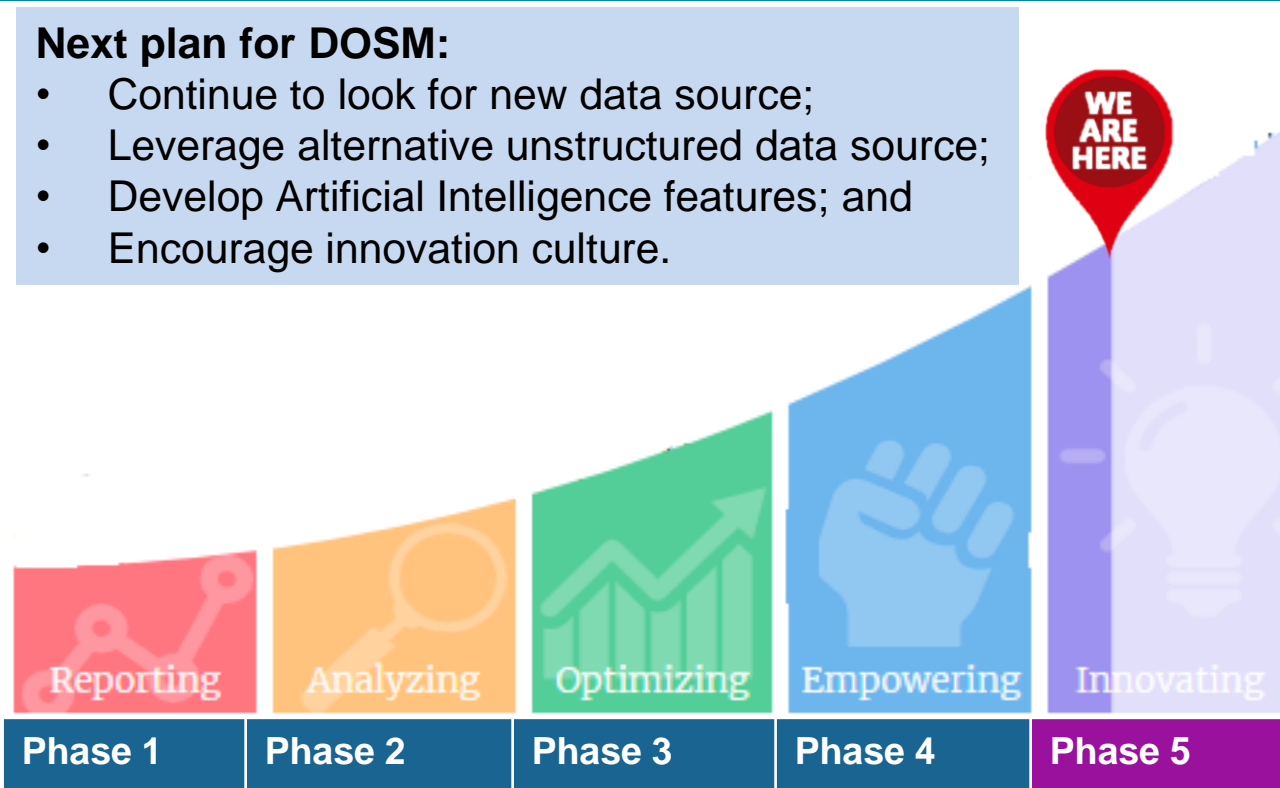

Introduction

Next plan for DOSM:

- Continue to look for new data source;
- Leverage alternative unstructured data source;
- Develop Artificial Intelligence features; and
- Encourage innovation culture.

No.	Phase	Focus and DOSM's Achievement
1.	Reporting	Focus: To make data available for analysing and do basic report. DOSM: eStatistics, OpenDOSM, StatsDW, Publication at granular level (Publication of Subnational Statistics of Parliament, State Legislative Assembly and My Local Stats).
2.	Analysing	Focus: To look deeper into the data to find insight. The analytical models can be created. DOSM: Nowcasting Malaysia's GDP with Machine Learning, Price Intelligence
3.	Optimizing	Focus: To develop and operationalizing prescriptive analytics. DOSM: Job Market Insight, Public Maturity Assessment On Official Statistics
4.	Empowering	Focus: Empowering employee with tools and knowledge to improve organization's role and function. DOSM: 49 SAS Certified Data Scientist
5.	Innovating	Focus: Continuous improvement towards organization's innovative products and services DOSM: National Central Database (PADU)

Data Driven Decision Making

1

Qualitative

Analysis is based on observation rather than measurement.

2

Quantitative

Analysis focuses on numbers and statistics.

Advantage of Data Driven Culture

- 1 Gain Data Insights
- 2 Measure Performance & Efficiency
- 3 Measure Satisfaction
- 4 Recognise Error
- 5 Understanding User Desires & Needs
- 6 Identify Trends & Future Opportunities

The Importance of Data Driven Decision Making

01

Knowledge and Innovation

02

New Business Opportunities

03

Better Communication

04

Unrivalled Adaptability

05

Continual Growth

No Asnaf Is Left Behind

1 Household Profile

Creating Comprehensive Muslim Household Profiles

Maintaining a Robust Business Register Owned By Muslims

2 Robust Business Register

Effective

Management

3 Geospatial Technology

Utilizing Geospatial Technology to Identify Areas Requiring Assistance

Employing Data Science And Analytics to Develop Profiles of Zakat and Waqf Payers and Receivers.

4 Employing Data Science And Analytics

Data Science in Enhancing the Capabilities of Religious Institutions Responsible for Zakat And Waqf

- 1 To Involve in Strategic Activity
- 2 Enhancing Zakat and Waqf Collection Methods
- 3 Ensuring a More Equitable Distribution of Social Assistance
- 4 Preventing Assistance Duplication
- 5 Tailoring Social Aid Based on Individual Needs
- 6 Conducting Precise Analyses of Zakat and Waqf Management
- 7 Integrating Them Into a Unified National Social Protection Single Reference System.
- 8 Data Governance and Data Management of Zakat and Waqf Through Data Collaboration and Partnership

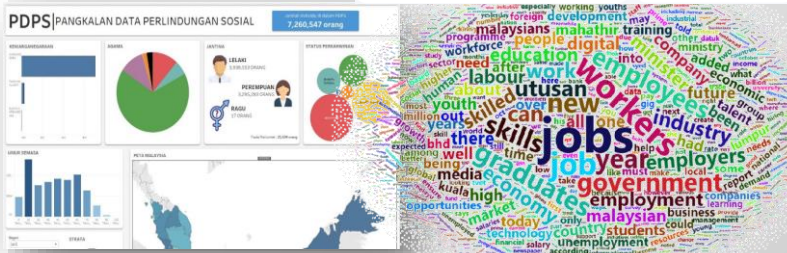

Towards a Citizen Data-Centric Culture

Initiative on Big Data for Official Statistics: Unlocking the full potential of Big Data

DOSM is moving towards Big Data Analytics (BDA) in producing more reliable and timeliness official statistics. Thus, DOSM has initiated the implementation of BDA with the project of STATSBDAs which is in line with DOSM's Transformation Plan 2015-2020. The objectives of the implementation of STATSBDAs are to:

- Modernise the data collection;
- Allow high accuracy;
- Reduce respondents' burden;
- Use as supplements for existing data in production of certain statistics; and
- Produce new statistical indicators.

National Central Database (PADU): Data-Centric Government

The implementation of PADU started with phase 1 in June 2023 and is expected to be completed in January 2024. PADU will create individual profiles of Malaysians that contain comprehensive household information with objectives to:

- Strengthening the fiscal position through targeted policy implementation;
- Production of periodically analytics (frequency based) for the purpose of policy formulation; and
- Digitalisation without leakage and waste.

Bridging the Gap: Communicating Statistics for Everyone

Data literacy through engagement sessions curated for everyone

Engagement: Community

DOSM believe in making the data accessible to everyone, host engagement sessions for diverse audiences, including students and the community is a must. These sessions serve as interactive platforms for sharing knowledge, fostering discussions, and building awareness about the importance of data literacy.

Through these curated engagement, DOSM aim to empower citizen with the skills and understanding the needs to navigate the data-driven world effectively for ensuring that no one is left behind in this era of information.

Engagement: Students

Engagement: Parliament Representative

Malaysia Data Innovation Talent X DOSM Datathon

Bridging the Gap: Communicating Statistics for Everyone (cont'd)

Strategic collaboration with various stakeholders

DOSM successfully implement and sustain the MOU with 6 Government/Agency, 15 Public Universities, 1 International Organisation, 9 Private Universities and 5 Private Companies to collaborate in data analysis, research sharing and new findings.

Current collaboration were DOSM- MAIWP (Islamic Religious Council of Federal Territory) with the studies on Utilising Data To Automate The Process Of Determining The Assistance Amount Using Machine Learning.

Bridging the Gap: Communicating Statistics for Everyone (cont'd)

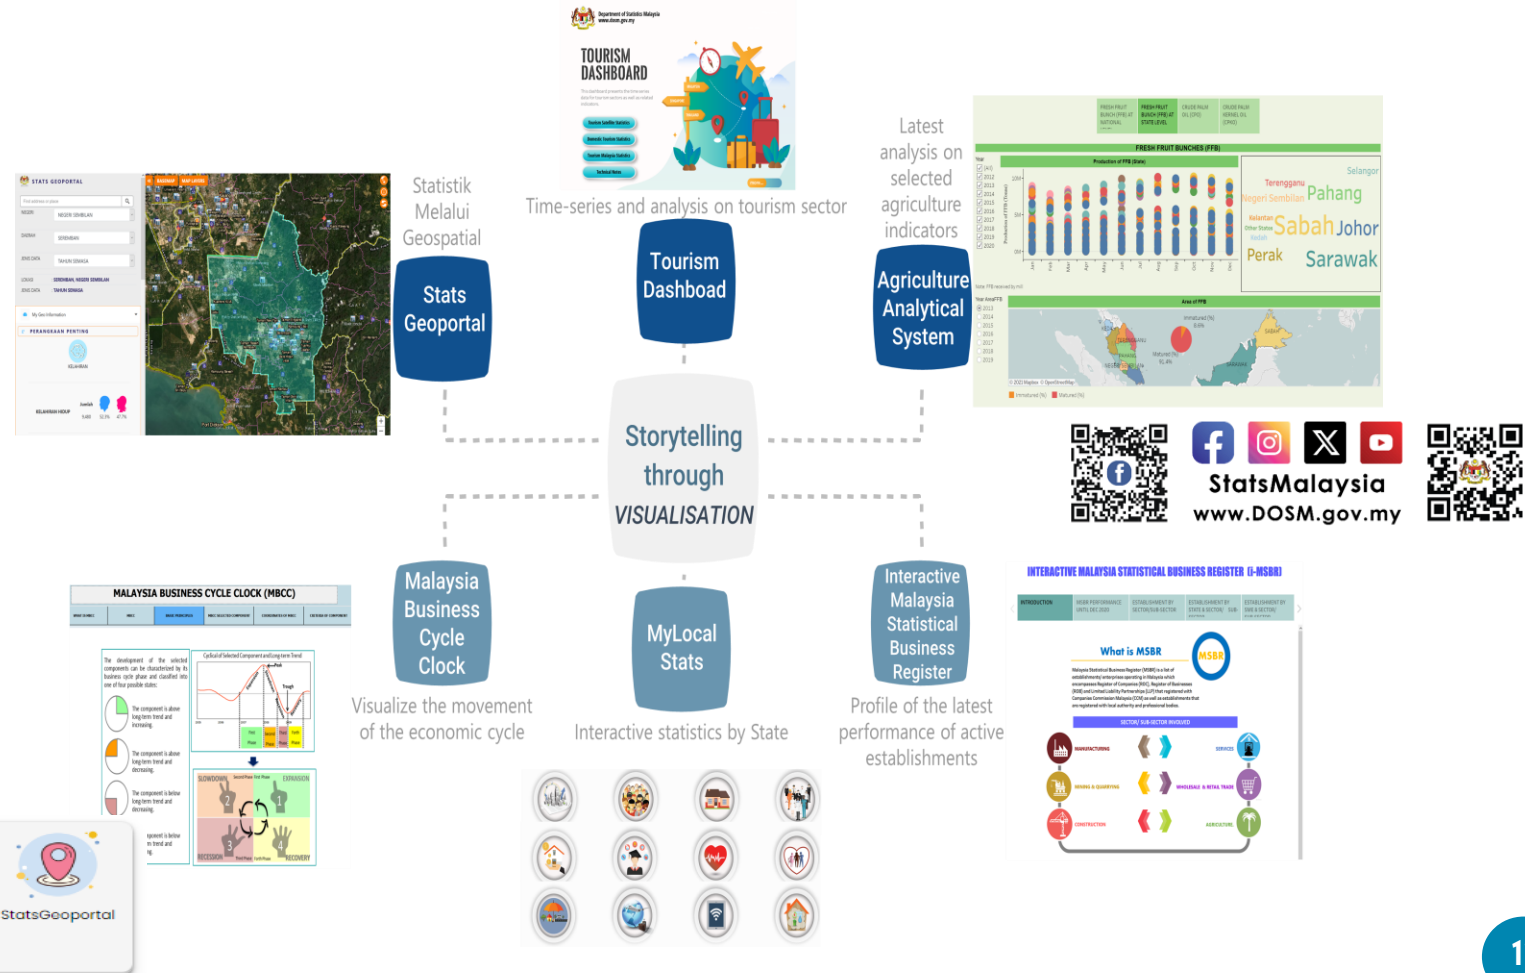

Statistics communication through visualisation & social media

DOSM has traditionally presented its data in many ways: in articles, press releases, tables, databank, maps, bar charts, pie charts, and line graphs.

New interactive visualisation techniques were first introduced in 2015, with the Industrial Production Index and the Population Pyramid as the best known examples. These visualisations give a clearer insight into how important data on a specific area interact and this storytelling give a lasting impact to the user/reader.

DOSM's online services includes 14 dashboards, 6 data portal and 15 interactive visualizations covering various themes .

The Motivation

DOSM embraces a dual approach, guided by the principles of **FAIR** and **CARE** to provide open data through **OpenDOSM**, a modern platform for easy access to open data.

FAIR ensures data is:

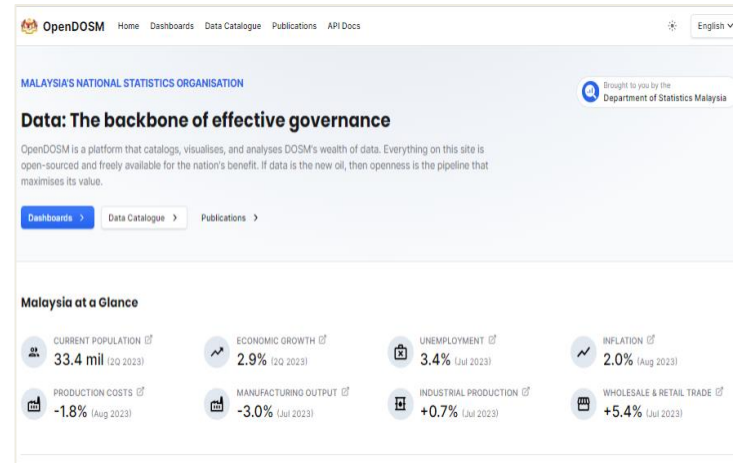

- ★ Findable
- ★ Accessible
- ★ Interoperable
- ★ Reusable

CARE principles emphasize:

- ✓ Collective Benefit
- ✓ Authority to Control
- ✓ Responsibility
- ✓ Ethics

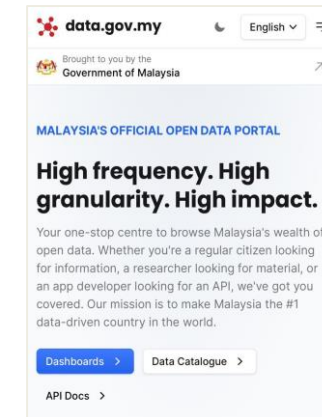

The Output

OpenDOSM

The Outcome

OpenDOSM led to a successful collaborative effort and value creations.

Kudos! OpenDOSM is really a game changing for Malaysian. Your dashboard inspired me to test this via @PowerBI. #OpenDOSM relatively easier to be queried. It's like a Pandora Box, making us closer to become data-driven society.

kassim babe @haze_yii · May 22

Replying to @irwanfahmiid and @KPDN_HQ

Entah la saya selalu pakai OpenDOSM nak check harga. Mungkin kawasan saya tu je la kot yang ok. And tbf, saya selalu beli borong. Dan disebabkan supply and demand, saya pilih mana yang murah untuk saya.

Kinda bias from my position tbf.

117

OpenDOSM implementation led to a successful collaborative effort and value creation

Way Forward

- 01 Leverage **alternative unstructured data sources** that is valuable source of information for AI models.
- 02 Continue to look for **new data sources** as new data sources can offer different perspectives towards more informed decisions.
- 03 **Develop Artificial Intelligence features** that support and create new products and services, and improve the efficiency and effectiveness of existing ones.
- 04 Enhance the OpenDOSM by providing more **comprehensive data** at granular level and higher frequency.

Conclusion

- 01 While progress has been made cultivating a data-centric culture in Malaysia, **continuous improvement** towards organization's innovative products and services is needed.
- 02 The success of a citizen data centric culture in Malaysia depends on the **effective statistics communication**.
- 03 The Malaysian government has made **significant progress** in promoting open data initiatives in recent years to drive and formulate more evidence-based policy making.
- 04 Open data through OpenDOSM plays a crucial role in **promoting transparency, accountability and innovation** in Malaysia.

The Power and Impact of Data: Unveiling the Story Within...

What people said....

“There were 5 exabytes of information created between the dawn of civilization through 2003, but that much information is now created every two days.”

- **Eric Schmidt, Executive Chairman at Google**

“Without big data analytics, companies are blind and deaf, wandering out onto the web like deer on a freeway.”

- **Geoffrey Moore, Management Consultant and Author Of Crossing The Chasm**

“Not everything that can be counted counts and not everything that counts can be counted.”

- **Albert Einstein**

“Data are just summaries of thousands of stories tell a few of those stories to help make the data meaningful.”

- **Dan Heath, Bestselling Author**

“No data is clean, but most is useful.”

- **Dean Abbott, Co-founder and Chief Data Scientist at SmarterHQ**

“Where there is data smoke, there is business fire.”

- **Thomas Redman, aka “The Data Doc”**

"STATISTICS BLOOM IN HARMONY"

Doesn't matter far or near
Strength in numbers
we don't live in fear

Birds of feather flock together
Statistics our form of adour
We, will always live it up

So let us live in solidarity
And in the world arena we'll
succeed

It is statistics that will come to be
The reason we will bloom in
harmony

Everybody undivided
Data's where our hearts reside in
There will always be a bind

Just like fire that ignites
That's how brightly lit our dreams are
We'll reach higher than the stars

Sending love to one another
Leaving no one in a slumber
We will stand with unity

Mustering our courage while
Embracing our disparities
We'll achieve our victory

One dream with unity
One love with harmony
