Infographic DISTRICT COOLING SYSTEM STATISTICS IN THE STATE OF QATAR 2019

Number of Cooling Projects Operational by Economic Activity

916,421 (TR)

Installed Cooling Projects
Operational Capacity

49%

Plant Utilisation in
Operational District
Cooling Plants

1,524.8 (Million Tr)

Annual Cooling Energy
Production in Operational
District Cooling Plants

10

Number of Cooling
Projects Under
Design

37

Number of Cooling
Projects Operational
Phase

25

Number of Cooling
Projects Under
Construction

53

Number of Cooling
Plants Operational
Phase

Amount of Energy & Water Saving and Reduction of Generated Emissions

0,246 (Million tons of carbon dioxide-equivalent)

Reduction of Generated Emissions vis-à-vis Conventional Cooling Method

25.7%

Percentage of Saving Energy Compare to Total of Electricity Consumption for District Cooling and Electrical Saving

32 (Million m³ per year)

Quantity of Compensatory Cooling Water

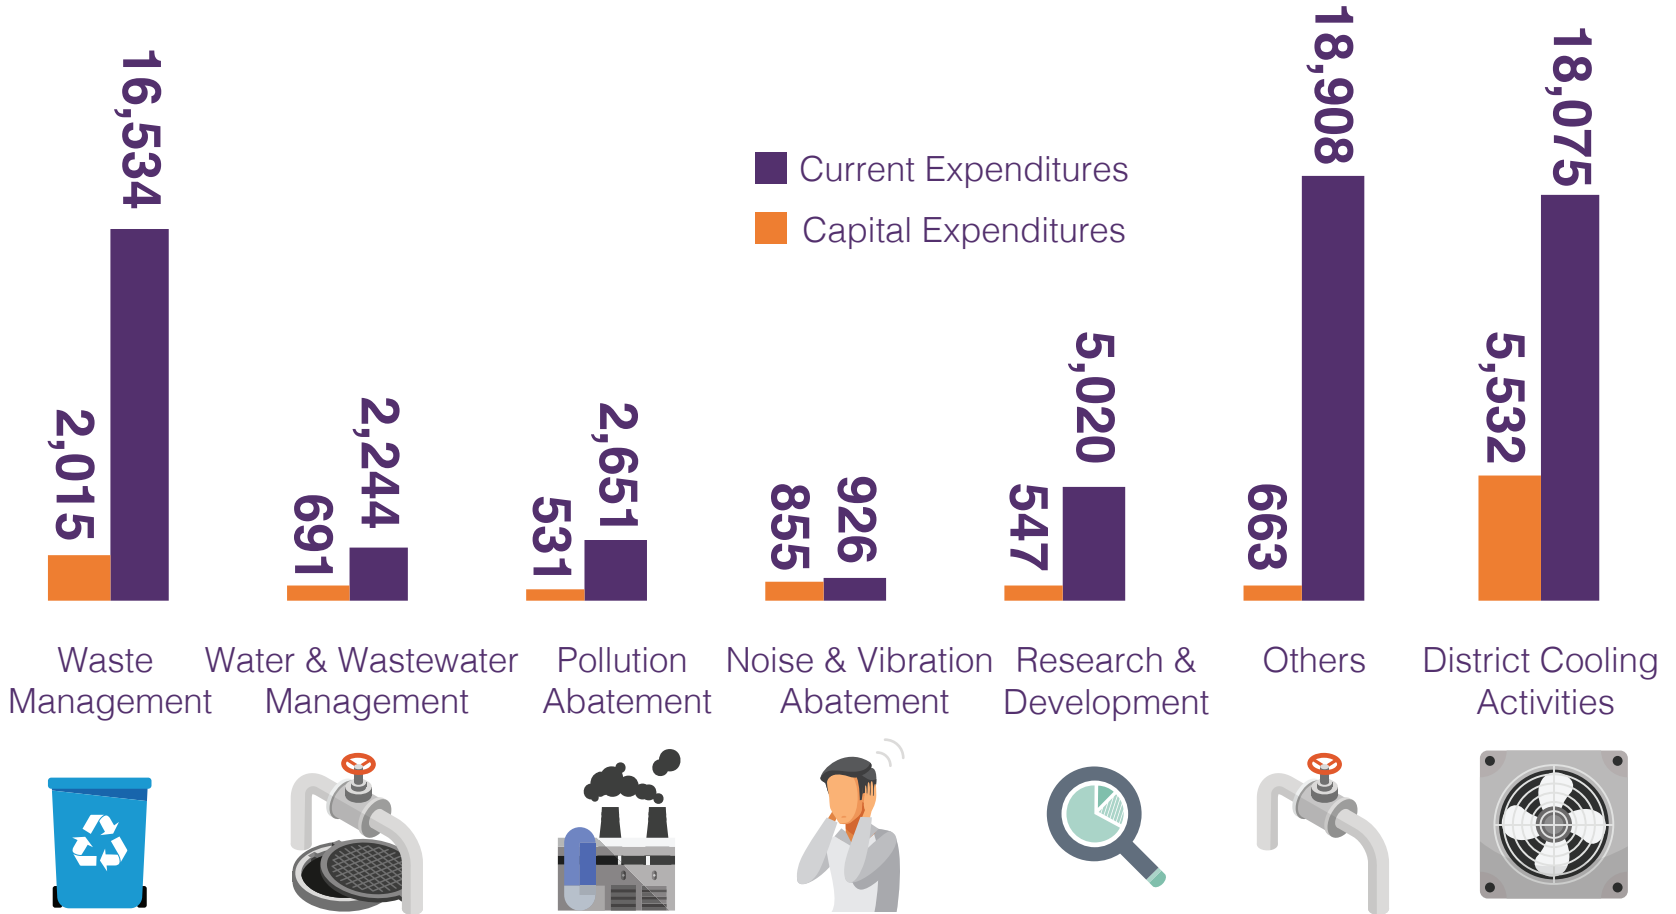

18,110 (Thousand m³ per year)

Fresh Water Saving

Amount of Expenditures on Environmental Protection Activities

(Thousand QR)

No. of Employees in District Cooling & Environment Protection

Cooling Plant Disposal Method by Quantity

(Thousand m³)

No. of National Agencies Which Obtained Prizes Since 2012

International Prizes

National Prizes

Environmental Commitments

4

Number of Environmental Competitions

10

Number of Specialized Training Sessions Hold by the Institution for Targeted People

44

Number of Participations in Local and External Environmental

14

Number of Awareness Campaigns for Civil Society

6

Number of Coferences & Events Organized by the Institution

8

Number of Agreements with National & International
