Jorge-Arnulfo Quiané-Ruiz

Jorge-Arnulfo Quiané-Ruiz is a Scientist at the Qatar Computing Research Institute (QCRI) since October 2012. His research interests include databases, distributed data management, and big data analytics.

Before joining QCRI, Jorge was postdoc at Saarland University for three years. He did his Ph.D. in Computer Science at INRIA and obtained his degree from the University of Nantes, France in September 2008.

He received a M.Sc. in Computer Science with specialty in Networks and Distributed Systems from Joseph Fourier University, Grenoble, France, in July 2004.

He obtained, with highest honors, a M.Sc. in Computer Science from the National Polytechnic Institute, Mexico, in August 2003.
