

Mr. Oussama Marseli

Chief of Division of census of population and vital statistics

Mr. Oussama Marseli is Chief of Census of Population and Housing Division and former Chief of Center of Automatic Reading of Documents at the High Commission for Planning of Morocco. Mr. Marseli earned a Master of Science in Statistics and a Certificate in Computing from the University of Idaho and the University of Georgia, respectively.

He has contributed to the modernisation of the HCP statistical system and to the implementation of several international statistics initiatives. In addition, he has expertise in the Arab region, conducting expert missions on processing census questionnaires and the use of mobile computers on surveys.
