Introduction	xiii
Progress in achieving the Sustainable Development Goals in Qatar	xv

Goal 1
End poverty in all its forms everywhere

1

Goal 5
Achieve gender equality and empower all women and girls

85

Goal 2
Ending hunger, achieve food security and improved nutrition and promote sustainable agriculture

15

Goal 6
Ensure availability and sustainable management of water and sanitation for all

105

Goal 3
Ensure healthy lives and promote well-being for all at all ages

29

Goal 7
Ensure access to affordable, reliable and sustainable modern energy for all

117

Goal 4
Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

61

Goal 8
Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

123

Goal 9
Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

137

Goal 12
Ensure sustainable consumption and production patterns

175

Goal 10
Reduce inequality within and among countries

147

Goal 13
Take urgent action to combat climate change and its impacts

189

Goal 11
Make cities and human settlements inclusive, safe, resilient and sustainable

157

Goal 14
Conserve and sustainably use the oceans, seas and marine resources for sustainable development

197

Goal 15
Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation, and halt biodiversity loss

219

Goal 16
Promote peaceful
and inclusive
societies for
sustainable
development,
provide access to
justice for all and
build effective,
accountable and
inclusive
institutions at all
levels

229

Goal 17
Strengthen the
means of
implementation
and revitalize
the Global
Partnership for
Sustainable
Development

271

Preface

The United Nations 2030 Agenda for Sustainable Development, launched in 2015, is a roadmap for international development aimed at ending poverty, hunger, inequality and achieving social justice by providing opportunities for all societal groups and reducing the effects of climate change. The State of Qatar has translated this agenda into development plans and programs aimed at creating a quality transformation in health, educational, environmental, economic and social systems to ensure the achievement of the targets of the 2030 SDGs.

It should be noted that achieving the Sustainable Development Goals 2030 according to the set targets, and ensuring progress in various aspects of sustainable development are both a solidarity and participatory responsibility between the government, private and civil society sectors, all responsible for implementing the National Development Strategy (2018-2022). The development of the Third National Development Strategy will be an opportunity for these three sectors to continue their efforts in implementing development projects and initiatives to ensure the achievement of the 2030 SDGs.

The report shows that the State of Qatar has been able to achieve most of the sustainable development goals and targets, especially those related to ending poverty and hunger, securing quality health and education, providing affordable clean water and energy and decent job opportunities, reducing inequalities and achieving justice and peace, and building sustainable cities and communities free from marginalization and crime. The report also points out that Qatar is making efforts to reduce the effects of climate change and unsustainable production and consumption patterns, protect ecosystems, revitalize the global partnership for development and strengthen the means of its implementation.

In conclusion, I can only thank all the ministries and government agencies that have contributed to facilitating the task of the work team in the Planning and Statistics Authority by providing the data and information required to complete this report in its comprehensive form, which we hope will be a guide for decision and policy makers in various development aspects and will help them identify actions and ways to achieve progress in the areas of sustainable economic development.

Acknowledgement

The Planning and Statistics Authority extends its sincere thanks and appreciation to the ministries, institutions and government agencies for their cooperation in providing the data required for the 2030 Sustainable Development Goals, which had a significant impact on measuring and monitoring progress in sustainable development indicators in the State of Qatar. We look forward to further cooperation to provide the rest of the indicators required for the SDGs.

The Planning and Statistics Authority extends its sincere thanks to all those who contributed to the preparation of the Sustainable Development Report in all its stages.

Introduction

This report aims to monitor the progress in achieving the 2030 sustainable development goals and targets and update national data in the databases of international organizations and bodies. In addition, it aims to create a reference for decision-makers and development policymakers, to help them identify the actions required to highlight progress in the areas of sustainable development, and to prepare an assessment of the achievements made when implementing the Second National Development Strategy (2018-2022).

This SDG Report is divided into seventeen sections, each of which analyzes and evaluates the extent to which the 17 goals and 169 targets of the sustainable development have been achieved according to UN-approved indicators. The first section deals with ending poverty in all its forms everywhere, while the second section elaborates on ending hunger, achieving food security and improved nutrition and promoting sustainable agriculture. The third section focuses on ensuring healthy lives and promoting well-being at all ages, while the fourth section is devoted to the efforts made to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all. The fifth section deals with the goal of achieving gender equality and empowering women, while the sixth section is devoted to ensuring availability and sustainable management of water and sanitation for all. The seventh section focuses on ensuring access to affordable, reliable, sustainable and modern energy for all.

The eighth section of the report reviews the goal of promoting sustained, inclusive and sustainable economic growth, full and productive employment, and decent work for all, while the ninth section focuses on the goal of building resilient infrastructure, promoting inclusive and sustainable industrialization and fostering innovation. The tenth section is devoted to reducing inequality within and among countries, while the eleventh section elaborates on making cities and human settlements inclusive, safe, resilient and sustainable. The twelfth section deals with the goal of ensuring sustainable consumption and production patterns, while the thirteenth section focuses on taking urgent action to combat climate change and its impacts. The fourteenth section sheds light on the goal of conserving and sustainably using the oceans, seas and marine resources for sustainable development.

The fifteenth section reviews what Qatar has achieved of the goal of protecting, restoring and promoting sustainable use of terrestrial ecosystems, sustainably managing forests, combating desertification, and halting and reversing land degradation and halting biodiversity loss. The sixteenth section focuses on promoting peaceful and

inclusive societies for sustainable development, providing access to justice for all and building effective, accountable and inclusive institutions at all levels.

The report concludes with the seventeenth section, which sheds light on strengthening the means of implementing and revitalizing the Global Partnership for Sustainable Development.

This report is based on data collected during the period (2016-2022), which was extracted from the administrative records of ministries, government and private institutions and the general census data. It is also based on specialized surveys such as the labor force survey, household expenditure and income survey, R&D survey, multi-indicator cluster survey, time use survey and others, in addition to statistical reports issued by national authorities in the country.

Progress in Achieving the Sustainable Development Goals in Qatar

The Planning and Statistics Authority (PSA), represented by the Statistics Department, in cooperation with various ministries and government agencies, has produced national SDG indicators, of which 207 indicators are available, making up 83.5% of total 248 indicators. There are 30 unavailable indicators, (12.1%) that need to be provided through surveys or administrative records. As for indicators that do not apply to the State of Qatar, they amount to 9, representing 3.6% of total indicators, while the number of indicators related to organizations' accounts is 2, representing 0.8% of total indicators. It should be noted that the total percentage of data availability, which includes available, non-applicable and related to organizations' accounts, is 87.9%.

SDG1: End poverty in all its forms everywhere

Target 1.1: By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than \$1.25 a day

1-1-1 Proportion of population living below the international poverty line by sex, age, employment status and geographical location (urban/ rural)¹

Table (1.1)

Proportion of population living below the international poverty line (2016–2022)

Sub-Indicator	2016	2017	2018	2019	2020	2021	2022
(a) Proportion of population living below the international poverty line	0.0	0.0	0.0	0.0	0.0	0.0	0.0
(b) Proportion of employed population living below the international poverty line	0.0	0.0	0.0	0.0	0.0	0.0	0.0

Source: Planning and Statistics Authority

Target 1.2: By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions

1-2-1 Proportion of population living below the national poverty line by sex and age

This indicator does not apply to the State of Qatar, as it is related to the calculation of the absolute poverty line (food and non-food), which is calculated based on calorie methodology, as this methodology is followed in developing countries.

1-2-2 Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions

Data is not available

(1) There are no rural areas in the State of Qatar.

Target 1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable

1-3-1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

Figure (1.1): Proportion of Qatari beneficiaries from social security pension out of total Qataris (%) (2016-2021)

Table (1.2)

Proportion of population receiving a pension, social assistance in the form of subsidies or at least one social protection benefit (age group 15 years and above) (2017/2018)

1-5-2 Direct economic loss attributed to disasters in relation to gross domestic product (GDP)

The value of direct economic losses attributed to disasters as a percentage of Qatar's GDP was zero due to the absence of natural disasters in Qatar throughout the period (2016-2020), due to its geographical location far from the areas of seismic activity, in addition to the lack of heavy rain, and the absence of hurricanes in the country. The strong Qatari economy has also contributed to facing financial crises competently and reducing their negative impact on the population.

1-5-3 Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030

Table (1.9) **Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030 (2016-2022)**

SDG 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Target (2-1): By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round

2.1.1 Prevalence of undernourishment.

Figure (2.1): Prevalence of undernourishment (2016-2019)

Table (2.1) Prevalence of undernutrition by sex (2016-2019)

Sub-indicator	Sex	2016	2017	2018	2019	Goal by 2030
Prevalence of undernutrition	Males	3.77	5.36	3.88	4.22	0.00
	Females	2.71	4.44	3.13	2.98	0.00
	Total	3.24	4.87	3.50	3.59	0.00
Gender Parity Index		0.72	0.83	0.81	0.71	1.00

2.3.2 Average income of small-scale food producers, by sex and indigenous status

Data is not available for this indicator.

Target 2.4: By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality

2.4.1 Proportion of agricultural area under productive and sustainable agriculture

Figure (2.8): Proportion of agricultural area allocated to productive and sustainable agriculture (2016-2021)

Table (2.8) Proportion of agricultural area under productive and sustainable agriculture (2016-2021)

Sub-indicator	2016	2017	2018	2019	2020	2021	Goal by 2030
Agricultural area under productive and sustainable agriculture (hectares)	29,926.6	29,992.3	30,207.0	30,433.5	40,400	41,344	Increase
Proportion of agricultural area under productive and sustainable agriculture (%)	50.4	52.6	54.0	52.4	55.2	54.1	Increase

Source: Ministry of Municipality

Target 2.5: By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed

2.5.1 Number of (a) plant and (b) animal genetic resources for food and agriculture secured in either medium- or long-term conservation facilities

Table (2.9) **Number of genetic resources conserved in Qatar BioBank by type of genetic resources (2016-2021)**

Type of Genetic Resources	2016	2017	2018	2019	2020	2021
Conserved plant genetic resources	105	89	14	43	227	75

* Formal education and training: defined as education provided by the system of schools, high schools, universities and other formal educational institutions that usually constitute a sequential ladder of full-time education for children and youth.

**Non-formal education and training: defined as any structured and sustainable learning activity that does not fully comply with the aforementioned definition of formal education. Non-formal education can therefore take place inside or outside educational institutions and embrace people of all ages. Depending on national contexts, non-formal education can cover educational programs that will impart adult literacy, life skills, practical skills and general culture.

Target 4.5: By 2030, eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations

4-5-1 Parity indices (female/male, rural/urban, bottom/top wealth quintile and others such as disability status, indigenous peoples and conflict-affected, as data become available) for all education indicators on this list that can be disaggregated

Table (4.10)

Gender parity Index for the indicators of SDG 4(2016-2022)

Sub-indicator	Characteristics	2016	2017	2018	2019	2020	2021	2022	Goal by 2030
4.1.1 Gender Parity Index for students in grade 3 achieving at least a minimum proficiency level in national exam	Reading	1.06	1.17	1.12	1.08	-	0.97	0.98	1.00
	Math	1.00	1.07	1.03	1.03	-	0.98	1.00	1.00
4.1.1 Gender Parity Index for students at the end of primary achieving at least a minimum proficiency level in national exam	Reading	1.06	1.32	1.23	1.33	-	1.17	1.09	1.00
	Math	0.99	1.22	1.41	1.36	-	1.16	1.14	1.00
	English	0.94	1.19	1.18	1.11	-	1.18	1.10	1.00

SDG 5: Achieve gender equality and empower all women and girls

Target 5.1: End all forms of discrimination against all women and girls everywhere

5-1-1 Whether or not legal frameworks are in place to promote, enforce and monitor equality and non-discrimination on the basis of sex

Figure (5.1): Percentage of legal, legislative and policy frameworks to promote, enforce and monitor equality and non-discrimination on the basis of sex (2022)

Table (5.1)

Legal, legislative and policy frameworks for the promotion, enforcement and monitoring of equality and non-discrimination on the basis of sex (2016-2022*)

Sub-indicator	Sector	2016 -2022
(a) Legal frameworks that promote, implement and monitor gender equality (percentage of achievement, 0-100) - Area 2: Violence against women	Reinforcement	78%
	Enforcement and monitoring	100%
	Total	85%
(b) Legal frameworks that promote, implement and monitor gender equality (percentage of achievement, 0-100) - Area 3: Employment and economic benefits	Reinforcement	83%
	Enforcement and monitoring	100%
	Total	88%
(c) Legal frameworks that promote, implement and monitor gender equality (percentage of achievement, 0-100) - Area 1: Comprehensive legal frameworks and public life	Reinforcement	57%
	Enforcement and monitoring	83%
	Total	69%
(d) Legal frameworks that promote, implement and monitor gender equality (percentage of achievement, 0-100) - Area 4: Marriage and the family	Reinforcement	100%
	Enforcement and monitoring	100%
	Total	100%

Note: A change in the methodology of calculating the index, led to a change in the value of the index.

Livestock farmland (Izbaa): it is a homestead constructed to manage and practice activities related to livestock, cultivation or both. The building is usually built on relatively limited space. It is equipped for animal care, plant cultivation, or both for a non-commercial purpose, and the activity is often practiced in person (source of definition: Planning and Statistics Authority)

Target 5.c: Adopt and strengthen sound policies and enforceable legislation to policies and enforceable legislation for the promotion of gender equality and the empowerment of all women and girls at all levels

5.c.1 Proportion of countries with systems to track and make public allocations for gender equality and women’s empowerment empowerment

Data is not available for this indicator.

6 CLEAN WATER
AND SANITATION

SDG 6 Summary

Number of Targets	Number of Indicators
8	11

Indicator Status	
Available	8
Unavailable	2
NA	1
Related to Organizations' Account	0
Total	11

SDG 6: Ensure availability and sustainable management of water and sanitation for all

Target 6.1: By 2030, achieve universal and equitable access to safe and affordable drinking water for all

6-1-1 Proportion of population using safely managed drinking water services.

Figure(6.1): Proportion of population with access to electricity (2016-2022)

Table (6.1)

Proportion of population using safely managed drinking water services (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022	Goal by 2030
Proportion of population using safely managed drinking water services	100%	100%	100%	100%	100%	100%	100%	100%

Target 6.2: By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations

6-2-1 Proportion of population using (a) safely managed sanitation services and (b) a hand-washing facility with soap and water

Figure (6.2): Proportion of population with access to safely managed sanitation services (2016- 2022)

Figure (6.3): Proportion of population with basic hand- washing facilities (2016-2022)

Table (6.2)

Proportion of population using safely managed sanitation services, including a hand-washing facility with soap and water (2016–2022)

Sub-indicator	Area	2016	2017	2018	2019	2020	2021	2022
(a) Proportion of population using safely managed sanitation, by urban/rural areas (%)	Urban	100%	100%	100%	100%	100%	100%	100%
	Rural	NA	NA	NA	NA	NA	NA	NA
(b) Proportion of population practicing open defecation, by urban/rural areas	Urban	100%	100%	100%	100%	100%	100%	100%
	Rural	NA	NA	NA	NA	NA	NA	NA
(c) Proportion of population with basic handwashing facilities in workplaces, by urban/rural areas	Urban	100%	100%	100%	100%	100%	100%	100%
	Rural	NA	NA	NA	NA	NA	NA	NA

Note: There are no rural areas in Qatar.

Target 6.3: By2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally

6-3-1 Proportion of domestic and industrial wastewater flows safely treated.

Figure (6.4): Proportion of safely treated wastewater (2016-2021)

Table (6.3)

Amount of wastewater, by treated water, type of treatment, reuse and wastewater treatment ratio (2016-2021)

Sub-indicator		2016	2017	2018	2019	2020	2021
Amount of collected wastewater (million m3/year)		209.5	231.5	257.8	278.2	291.5	255.0
Amount of treated wastewater by type of treatment (million m3/year)	Primary treatment – mechanical	0.0	0.0	0.0	0.0	0.0	0.0
	Secondary treatment	0.4	0.4	0.4	0.4	0.4	0.3
	Tertiary treatment (disinfection)	49.1	51.4	48.2	52.0	45.2	42.6
	Tertiary treatment (nitrogen and phosphorus removal)	160.2	179.7	209.3	225.9	246.0	212.0
	Total	209.6	231.6	257.9	278.3	291.6	255.0
Proportion of wastewater treated in wastewater plants (%)		99.1%	98.9%	99.4%	99.6%	99.7%	99.7%
Wastewater not collected in drainage network and is discharged without treatment (million m3/year)		1.9	2.4	1.6	1.0	0.8	0.7
Sewage sludge production (tons of dry solids per year)		41,550.9	41,554.1	37,687.6	39,096.1	40,959.7	41,348.9
Use of treated wastewater (thousand m3/year)	Agricultural Irrigation	61.7	69.5	79.7	86.1	89	77.16
	Irrigation of green areas	42.5	61	71.2	76.6	86.6	107.9
	Injection into underground reservoirs	60.4	63.9	66.9	79.7	78.1	54.7
	Discharge in lakes	39.2	33.8	38.2	33	32.3	13.4
	Discharge into the sea	0.7	0.5	0.5	0.7	0.1	0.1

6.3.2 Proportion of bodies of water with good ambient water quality

Data is not available for this indicator.

Target 6.4: By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity

6-4-1 Change in water use efficiency over time.

Figure (6.5): Water-use efficiency by sectors (2017-2021)

Table (6.4) Change in water use efficiency over time by sector (2016-2021)

Variable	Sector	2016	2017	2018	2019	2020	2021

	Total	-	31%	-3%	-15%	-1%	-5%

- The methodology for calculating the index has been updated according to the definitions and calculations contained in the FAO form (AQUASTAT).
 - *: The service sector in the FAO form (AQUASTAT) refers to the municipal sector.
 - Industry: includes mining and manufacturing activities (B+C) and construction sector (F).
 - Municipal/Service: Includes service activities (G-T) and water activities (E).
- Source: Qatar General Electricity and Water Corporation and PSA calculations.

6-4-2 Level of water stress: freshwater withdrawal as a proportion of available freshwater resources

The results of the indicator for the level of water stress in the classification are as follows:

- No stress less than 25%
- Low stress 25% - 50%
- Medium stress 50% - 75%
- High stress 75% - 100%
- Critical stress more than 100%

Figure (6.6): Level of water stress (2016-2021)

Target 6.5: By 2030, implement integrated water resources management at all levels, including through transboundary cooperation, as appropriate

6-5-1 Degree of integrated water resources management implementation (0-100)

Figure (6.7): Degree of integrated water resources management implementation (2016-2021)

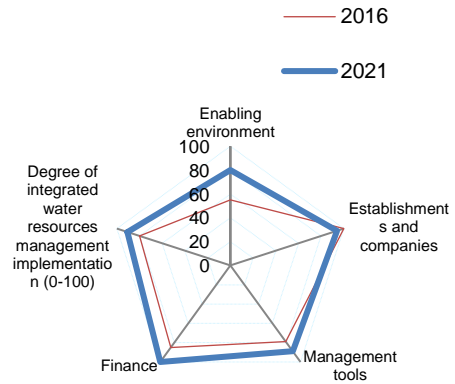

Figure (6.8): Degree of implementation of integrated water resources management for the years 2016 and 2021

The results of the indicator in the classification are as follows:-

- Very high 90-100
- High 80 – 89
- Medium high 60 – 79
- Medium low 40 – 59
- Low 20 – 39
- Very low 0 – 19

Table (6.5) **Degree of integrated water resources management implementation (0–100) (2016-2021)**

Sub-indicator	2016	2017	2018	2019	2020	2021	Goal by 2030
(a) Degree of implementation of integrated water resources management (%)	80	82	82	81	90.5	90.7	100
(b) Degree of implementation of integrated water resources management and enabling environment (%)	55	55	55	60	80	80	100
(c) Degree of implementation and funding of integrated water resources management (%)	85	85	85	85	100	100	100
(d) Degree of implementation of integrated water resources management, institutions and participation (%)	100	100	100	90	94	94	100
(e) Degree of implementation of integrated water resources management and management tools (%)	79	87.5	87.5	90	88	88.9	100

Source: Qatar General Electricity and Water Corporation.

6.5.2 Proportion of transboundary basin areas with an operational arrangement for water cooperation.

This indicator does not apply to Qatar for the following reasons:

1. Qatar is completely dependent on seawater desalination as a source of water.
2. Qatar does not have water basin.
3. Umm Er-Radhuma Layer–Dammam aquifer located between Qatar, Saudi Arabia and Bahrain is extremely salty in nature and cannot be used as a source.
4. The source of transboundary freshwater does not exist.

Table (6.6) **Proportion of transboundary basin areas with an operational arrangement for water cooperation (2016-2022)**

Sub-indicator	2016	2017	2018	2019	2020	2021	2022
(a) Proportion of transboundary basin areas (river basins, lakes and aquifers) with an operational arrangement for water cooperation (%)	NA	NA	NA	NA	NA	NA	NA
(b) Proportion of transboundary aquifers with an operational arrangement for water cooperation (%)	NA	NA	NA	NA	NA	NA	NA
(c) Proportion of transboundary river and lake basins with an operational arrangement for water cooperation (%)	NA	NA	NA	NA	NA	NA	NA

Source: Qatar General Electricity & Water Corporation.

Target 6.6: By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes

6.6.1 Change in the extent of water-related ecosystems over time.

Data is not available for this indicator.

Target 6.a: By 2030, expand international cooperation and capacity-building support to developing countries in water-and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies

6.a.1 Amount of water- and sanitation-related official development assistance that is part of a government-coordinated spending plan

Figure (6.9): Amount of water- and sanitation-related official development assistance that is part of a government-coordinated spending plan (2016-2020)

Table (6.7)

Value of development assistance for SDG 6 (2016-2020)

SDG 7: Ensure access to affordable, reliable and sustainable modern energy services for all

Target 7.1: By 2030, ensure universal access to affordable, reliable and modern energy services

7-1-1 Proportion of population with access to electricity services.

Figure (7.1): Proportion of population with access to electricity services (2016-2022)

7.1.2 Proportion of population with primary reliance on clean fuels and technology.

Table (7.1) Proportion of population with primary reliance on clean fuels and technology (2016 -2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022	Goal by 2030
(a) Proportion of population with primary reliance on clean fuels and technology (%)	100%	100%	100%	100%	100%	100%	100%	100%
(b) Proportion of population with primary reliance on clean fuels and cooking technology (%)	100%	100%	100%	100%	100%	100%	100%	100%

Target 7.2: By 2030, increase substantially the share of renewable energy in the global energy mix

7-2-1 Renewable energy share in the total final energy consumption.

Table (7.2)

Renewable energy share in the total final energy consumption (total electricity consumption by different sectors) (2016-2020)

Description	2016	2017	2018	2019	2020	Goal by 2030	
Electricity consumption by sector (MW per year)	Loss of transportation and distribution	2,532,392	2,694,696	2,786,404	2,772,002	2,774,269	-
	Electricity consumption in generation plants	2,641,801	2,831,204	3,258,544	3,440,493	3,433,881	-
	Electricity consumption in the industrial sector	12,026,249	11,261,941	12,197,379	12,124,082	10,464,179	-
	Domestic electricity consumption	25,107,915	32,095,345	32,765,544	31,536,113	33,802,149	-
	Total consumption (A)	39,775,965	46,188,490	48,221,467	47,100,688	47,700,209	-
Electricity output (MW per year)	Total net output of the network	40,135,345	43,459,957	45,065,903	46,434,716	45,826,447	-
	Total electricity production	42,306,607	45,554,730	47,912,684	49,872,690	49,258,957	-
Amount of renewable energy by source (MW per year)	The sun	8	10	5	7	8	increase
	Waste incineration	40	40	40	41	41	increase
	Total (B)	48	50	45	48	49	increase
Total renewable and non-renewable electricity consumption (MW per year)	42,308,405	48,883,236	51,007,916	49,872,738	50,474,527	-	
Renewable energy share in the total final electricity consumption (total consumption) (%)	0.0001%	0.0001%	0.0001%	0.0001%	0.0001%	increase

Target 7.3: By 2030, double the global rate of improvement in energy efficiency

7.3.1 Energy intensity measured in terms of primary energy and GDP.

Data is not available for this indicator.

Target 7.a: By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology

7.a.1 International financial flows to developing countries in support of clean energy research and development and renewable energy production, including in hybrid systems

Table (7.3) Value of development assistance for SDG 7 (2016-2019)

Unit	2016	2017	2018	2019

8 DECENT WORK AND
ECONOMIC GROWTH

SDG 8 Summary

Number of Targets	Number of Indicators
12	16

Indicator Status	
Available	14
Unavailable	2
NA	0
Related to Organizations' Account	0
Total	16

SDG 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

Target 8.1: Sustain per capita economic growth in accordance with national circumstances and, in particular, at least 7 per cent gross domestic product growth per annum in the least developed countries

8-1-1 Annual growth rate of real GDP per capita.

Figure(8.1): Annual growth rate of real GDP per capita (%) (2016-2020)

Table (8.1) Annual growth rate of real GDP per capita (2016-2020)

Description	2016	2017	2018	2019	2020	2021	Goal by 2030
GDP per capita in Qatari Riyals (QR per capita)	247,996	234,691	234,528	233,050	228,688	239,556	-
GDP per capita in US Dollars (US\$ per capita)	68,131	64,476	64,431	64,025	62,826	65,812	-
Annual Growth Rate (%)	-4.02%	-5.36%	-0.07%	-0.63%	-1.87%	4.75%	7%

Source: Planning and Statistics Authority

Target 8.2: Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and Labor-intensive sectors

8-2-1 Annual growth rate of real GDP per employed person

Figure(8.2): Annual growth rate of real GDP per employed person (%) (2016-2021)

Table (8.2) Annual growth rate of GDP per employed person (2016-2021)

Description	2016	2017	2018	2019	2020	2021	Goal by 2030
GDP per capita (QR per employed person)	316,293	311,287	307,089	309,509	295,207	325,654	increase
GDP per capita (US\$ per employed person)	86,894	85,518	84,365	85,030	81,101	89,465	increase
Annual growth rate	-2.71%	1.51%	1.37%	-0.78%	-4.62%	10.31%	increase

Source: Planning and Statistics Authority

Target 8.3: Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services

8-3-1 Proportion of informal employment in the total employment by sector and sex

Table (8.3) Proportion of informal employment in the total employment (2016-2022)

Indicator	2016	2017	2018	2019	2020	2021	2022
Proportion of informal employment in the total employment by sector and sex	0	0	0	0	0	0	0

Source: Planning and Statistics Authority - Labor Force Survey

Target 8.4: Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead

8.4.1 Material footprint, material footprint per capita, and material footprint per GDP.

Data is not available for this indicator.

8.4.2 Domestic material consumption, domestic material consumption per capita, and domestic material consumption per GDP.

Data is not available for this indicator.

Target 8.5: By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value

8-5-1 Average hourly earnings of female and male employees, by occupation, age and persons with disabilities.

Figure (8.3): Average monthly wage (in QR) for wage workers (15 years and above) (2016-2021)

Table (8.4) **Average hourly wage for wage earners (in QR) (15 years and above) by sex and occupation (2016-2021)**

Sex and Occupation		2016	2017	2018	2019	2020	2021
Average hourly wage for males		52.6	55.6	55.7	56.3	56.6	57.6

Source: Planning and Statistics Authority - Labor Force Survey

Target 8.7: Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labor, including recruitment and use of child soldiers, and by 2025 end child labor in all its forms

8-7-1 Proportion and number of children aged 5-17 years engaged in child labor, by sex and age.

The statistical data indicate that the State of Qatar is completely free of child labor, as the proportion of children (5-17 years) engaged in the labor market was zero throughout the period (2016-2020). This means that the target related to ending child labor in all its forms has been achieved ten years ahead of the 2030 deadline, as the Qatari legislations prohibit the work of minors. Article (86) of the Labor Law No. (14) of 2004 indicates "A person under the age of 16 may not be employed in any work, nor shall he/she be allowed to enter any workplace."

Target 8.8: Protect Labor rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment

8-8-1 Fatal and non-fatal occupational injuries per 100,000 workers, by sex and migrant status

Table (8.9) **Number of fatal and non-fatal occupational injuries by sex
Fatal and non-fatal occupational injuries per 100,000 workers by sex (2016-2021)**

Sub-indicator	Sex	2016	2017	2018	2019	2020	2021

8-8-2 Level of national compliance to labour rights (freedom of association and collective bargaining) based on International Labour Organization (ILO) textual sources and national legislation, by sex and migrant status

The Labour Law No. 14 of 2004, Chapter 12 (Labour Organizations) and Chapter 13 (Joint Commissions, Collective Bargaining and Joint Agreements), provides for the mechanisms, requirements and organization of freedom of association and collective bargaining. The State of Qatar signed the Technical Co-operation Agreement (2018-2020) with the International Labour Organization (ILO) at the 331st Session of the ILO Governing Body in Geneva. The workplan of Cooperation includes several objectives, including Objective 5 to give voice to workers. For this purpose, six projects will be implemented; namely: -

- 5.1 Improve national mechanisms for complaints for workers.
- 5.2 Provide support from the ILO for workers to submit their complaints through the national mechanism, including follow-up to ensure prompt and fair treatment and avoid retaliation.
- 5.3 Form joint labour committees.
- 5.4 Raise expatriate workers' awareness of their rights and obligations, particularly with respect to the submission of complaints, required documents and various other procedural matters.
- 5.5 Improve the legislation and performance of workers' committees.
- 5.6 Launch a national awareness campaign on rights at work and capacity building for all relevant employees, employers and government officials in Qatar.

Target 8.9: By 2030, devise and implement policies to promote sustainable tourism that creates jobs and promotes local culture and products

8.9.1 Tourism direct GDP as a proportion of total GDP and in growth rate.

Figure (8.6): Percentage of tourism direct GDP of total GDP (2016-2019)

Table (8.10)

Tourism direct GDP as a proportion of total GDP and in growth (2016-2019)

Sub-indicator	2016	2017	2018	2019
Tourism value added (QR)	22,359,091,286	22,031,954,517	22,460,638,936	22,385,180,810
Percentage of tourism value added to GDP (%)	2.06	3.27	4.05	3.62
Growth rate	4.05	3.76	3.37	3.50

Source: Planning and Statistics Authority

Target 8.10: Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all

8-10-1 (a) Number of commercial bank branches per 100,000 adults and (b) number of automated teller machines (ATMs) per 100,000 adults.

Figure(8.7): Number of commercial bank branches per 100,000 adults (2016-2020)

SDG 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation.

Target (9.1): Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

9-1-1 Proportion of the rural population who live within 2 km of an all-season road

The indicator does not apply to Qatar since all municipalities of the country are urban.

9-1-2 Passenger and freight volumes, by mode of transport

Table (9-1)

Number of passengers and freights, by mode of transport and direction (2016-2019)

Type	Mode of Transport	Direction	2016	2017	2018	2019
Passengers	Air	Arrivals	18,722,474	17,634,110	17,262,301	19,376,391
		Departures	18,600,369	17,644,492	17,233,727	19,427,655

Total	7.0	7.0	7.1	7.4	4.8	5.8

Source: PSA, Labour Force Sample Survey.

Target (9-3): Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets

9-3-1 Proportion of small-scale industries to total industry value added.

Table (9-4) Proportion of small-scale industries to total industry value added (2016-2021)

Indicator	2016	2017	2018	2019	2020	Goal by 2030
Small-scale industries value added (million QR.)	744	745	578	565	...	-
Total industry value added (million QR.)	46,814	47,189	54,972	53,501	41,586	-
Proportion of small-scale industries in total industry value added (%)	1.59	1.58	1.05	1.06	...	Increase

Source: PSA

9-3-2 Proportion of small-scale industries with a loan or line of credit.

Data are not available for this indicator.

Target (9.4): By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

9-4-1 CO₂ emission per unit of value added.

Table (9-5) CO₂ emission per unit of value added (2007)

Sub-indicator	2007
(a) CO ₂ emissions from fuel combustion (millions of tons)	46,507
(b) Total CO ₂ emissions from fuel combustion (millions of tons)*	52,924
(c) Total CO ₂ emission emissions per unit of GDP (kilograms per 2017 US dollar)	0.0009
(d) CO ₂ emissions per unit of GDP of economic activity (manufacturing excluding Manufacture of coke and refined petroleum products and repair and installation of machinery and equipment) (kilograms per 2015 US dollar)	0.0003

*: Includes productive and fugitive (diffuse) emissions

Note: Manufacturing: mining and manufacturing

Source: The Ministry of Environment and Climate Change; the first national communication report, and PSA calculations

Target (9-5): Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending

9-5-1 Research and development expenditure as a proportion of GDP.

Figure (9.5): R&D expenditure as a proportion of GDP (2012-2021)

Table (9-6) Value of R&D expenditure by sector (2012-2021)

Indicator	Sector	2012	2015	2018	2021	Goal by 2030
R&D expenditure as a proportion of GDP (%)	Total	0.47%	0.51%	0.51%	0.68	Increase

Target (10-7): Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies

10.7.1 Recruitment cost borne by employee as a proportion of yearly income earned in country of destination.

Under the provisions of Article (33) of Labour Law No. 14 of 2004, persons who are licensed to recruit workers from abroad shall be prohibited from collecting from the recruited workers any sums of money as recruitment fees or other charges. It must be noted that work visas granted to the establishments are free of charge, and therefore no cost of recruitment shall be borne by the worker as a proportion of his/her annual income received.

10-7-2 Proportion of countries with migration policies that facilitate orderly, safe, regular and responsible migration and mobility of people

Table (10-8) **Number of countries that have implemented well-managed migration policies that facilitate orderly, safe, regular and responsible migration and movement of people (2016-2022)**

Sub-indicator	2016	2017	2018	2019	2020	2021	2022
(a) Countries that have implemented well-managed migration policies (1=yes; 0=No)	1	1	1	1	1	1	1
(b) Countries with immigration policies to facilitate orderly, safe, regular and responsible migration and mobility of people	100%	100%	100%	100%	100%	100%	100%
(c) Countries with immigration policies to facilitate orderly, safe, regular and responsible migration and mobility of people, by policy domain (1 = requires further progress; 2 = partially meets; 3 = meets; 4 = fully meets)	4	4	4	4	4	4	4

10.7.3 Number of people who died or disappeared in the process of migration towards an international destination.

The indicator does not apply to Qatar .

10.7.4 Proportion of population who are refugees, by country of origin.

The indicator does not apply to Qatar.

Target (10.a): Implement the principle of special and differential treatment for developing countries, in particular least developed countries, in accordance with World Trade Organization agreements

10.a.1 Proportion of tariff lines applied to imports from least developed countries and developing countries with zero-tariff.

The indicator data is for the organizations' account.

Target (10-b): Encourage official development assistance and financial flows, including foreign direct investment, to States where the need is greatest, in particular least developed countries, African countries, small island developing States and landlocked developing countries, in accordance with their national plans and programmes

10-b-1 Total resource flows for development, by recipient and donor countries and type of flow (e.g., official development assistance, foreign direct investment and other flows)

Table (10-11) **Total resource flows for development, by sector (2016-2021)**

Sector	2016	2017	2018	2019	2020	2021

SDG 11: Make cities and human settlements inclusive, safe, resilient and sustainable.

Target (11-1): By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums

11-1-1 Proportion of urban population living in slums, informal settlements or inadequate housing

Table (11-1) Proportion of urban population living in slums, informal settlements or inadequate housing (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022

(b) Number of urban population living in slums	0	0	0	0	0	0	0

Source: Planning and Statistics Authority

Target (11.2): By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons

11.2.1 Proportion of population that has convenient access to public transport, by sex, age and persons with disabilities.

Figure (11.1): Proportion of population with convenient access to public transport (2016-2022)

Target (11.3): By 2030, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries

11.3.1 Ratio of land consumption rate to population growth rate.

Figure (11.2) Population and land consumption rate (km²) (2016-2021)

Figure (11.3): Annual growth rates of lands consumed and annual population growth (2016-2021)

Figure (11.4): LCRPGR overall average 2016-2021

Table (11-2) Area of consumed land, population, annual growth rates, and overall average of the indicator (2016-2021)

Description	2016	2017	2018	2019	2020	2021
Area of consumed land (km ²)	1,026	1,193	1,251	1,394	1,430	1,663
Population	2,617,634	2,724,606	2,760,170	2,799,202	2,833,679	2,748,162

11-5-2 Direct economic loss in relation to global GDP attributed to disasters

The direct economic losses resulting from disasters as a percentage of GDP, including infrastructure damage and the number of disruptions to basic services attributable to disasters in the State of Qatar, were zero thanks to the absence of natural disasters in Qatar during (2016-2020). This is due to the fact that Qatar's geographic location is far from seismic zones, in addition to lack of heavy rainfall and the absence of cyclones. The robust Qatari economy has also contributed to tackling financial crises and reducing their negative impact on the population.

11-6 (a) Damage to critical infrastructure and (b) number of disruptions to basic services, attributed to disasters.

Description	(a) Damage to critical infrastructure and (b) number of disruptions to basic services, attributed to disasters (2016-2021)					
	2016	2017	2018	2019	2020	2021
Number of critical infrastructure damaged by disasters	0	0	0	0	0	0
Number of health facilities destroyed or damaged by disasters	0	0	0	0	0	0
Number of educational facilities destroyed or damaged by disasters	0	0	0	0	0	0
Number of other critical infrastructure units and facilities destroyed or damaged by disasters	0	0	0	0	0	0
Number of disruptions to basic services, attributed to disasters	0	0	0	0	0	0
number of disruptions to educational services, attributed to disasters	0	0	0	0	0	0
number of disruptions to health services, attributed to disasters	0	0	0	0	0	0
Number of disruptions to other basic services, attributed to disasters	0	0	0	0	0	0

Target (11.6): By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management

11.6.1 Proportion of municipal solid waste collected and managed in controlled facilities out of total municipal waste generated, by cities

Description	Proportion of municipal solid waste collected and managed in controlled facilities out of total municipal waste generated, by cities (2016-2021)							Goal by 2030
	2016	2017	2018	2019	2020	2021		
Quantity of urban solid waste regularly collected and with adequate final discharge (ton)	8,394,793	8,156,591	5,946,811	7,667,086	10,303,367	12,120,156	-	
Percentage of urban solid waste regularly collected and with adequate final discharge out of total urban solid waste generated in cities (%)	100%	100%	100%	100%	100%	100%	100%	

Source: Ministry of Municipality

Table
(11-8)

Quantity of incoming waste by type (tons) (2016-2021)

Solid Waste Type	2016	2017	2018	2019	2020	2021
Household waste	1,155,469	1,184,387	1,315,995	1,288,088	1,298,850	1,514,868

Target (11.a): Support positive economic, social and environmental links between urban, peri-urban and rural areas by strengthening national and regional development planning

11.a.1 Number of countries that have national urban policies or regional development plans that (a) respond to population dynamics; (b) ensure balanced territorial development; and (c) increase local fiscal space.

Table (11-13) **Number of countries that have national urban policies or regional development plans that (a) respond to population dynamics; (b) ensure balanced territorial development; and (c) increase local fiscal space (2016-22)**

Description	2016	2017	2018	2019	2020	2021	2022
Taking population projections into consideration (1=Yes, 0=No)	1	1	1	1	1	1	1
Taking resource needs into consideration (1=Yes, 0=No)	1	1	1	1	1	1	1

Source: PSA

Target (11-b): By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels

11.b.1 Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030.

Indicator	Qatar's adoption and implementation of national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction (2016-2022)						
	2016	2017	2018	2019	2020	2021	2022
Qatar's adoption and implementation of national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction (1=Yes, 0=No)	1	1	1	1	1	1	1

SDG 12: Ensure sustainable consumption and production patterns

Target (12-1): Implement the 10-Year Framework of Programmes on Sustainable Consumption and Production Patterns, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries

12-1-1 Number of countries developing, adopting or implementing policy instruments aimed at supporting the shift to sustainable consumption and production

Sub-indicator	Number of countries developing, adopting or implementing policy instruments to support the transition to SCP (2016-2022)							
	2016	2017	2018	2019	2020	2021	2022	Goal by 2030
(a) Number of countries with SCP national action plans or SCP mainstreamed as a priority or a target into national policies (1=Yes, 0=No)	1	1	1	1	1	1	1	1
(b) Countries with a coordination mechanism for SCP (1=Yes, 0=No)	1	1	1	1	1	1	1	1
(c) Countries with other implementation activities for SCP (1=Yes, 0=No)	1	1	1	1	1	1	1	1
(d) Countries with an SCP policy instrument (1=Yes, 0=No)	1	1	1	1	1	1	1	1
(e) Number of policies, instruments and mechanism in place for sustainable consumption and production (Number) (1=Yes, 0=No)	-

Source: Ministry of Municipality

Target (12.2): By 2030, achieve the sustainable management and efficient use of natural resources

12-2-1 Material footprint, material footprint per capita, and material footprint per GDP.

Data for this indicator is not available.

12-2-2 Domestic material consumption, domestic material consumption per capita, and domestic material consumption per GDP

Data for this indicator is not available.

Target (12.3): By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses

12-3-1 (a) Global Food Loss Index and (b) Food Waste Index.

Table (12-2)		Quantity and value of crop loss by type of crop (2016-2021)

Target (13.a): Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible

13.a.1 Mobilized amount of United States dollars per year between 2020 and 2025 accountable towards the \$100 billion commitment

Table
(13-9)

Amounts provided and mobilized in United States dollars per year in relation to the continued existing collective mobilization goal of the \$100 billion commitment through to 2025 (2019)

Indicator	2019	Goal 2020-2025
Value (\$)	100	\$100 billion

Target (13.b): Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities

13.b.1 Number of least developed countries and small island developing States with nationally determined contributions, long-term strategies, national adaptation plans and adaptation communications, as reported to the secretariat of the United Nations Framework Convention on Climate Change

Qatar stresses the importance of cooperation and integrated work in developing a strategy aimed at supporting SIDS and LDCs in developing their planning and administrative capabilities related to climate change and working to achieve the ambitious goals of the Paris Agreement. In this context, the State of Qatar has provided an amount of \$100 million to support the efforts of SIDS and LDCs to deal with climate change. In providing this support, it will depend on a multi-sectoral approach to development cooperation, taking into account 3 priority sectors; namely, education, as an essential pillar of the global response to climate change, economic development, and health due to the impact of climate change on the level of health programs and systems.

Target (14.5) By 2020, conserve at least 10 per cent of coastal and marine areas, consistent with national and international law and based on the best available scientific information

14-5-1 Coverage of protected areas in relation to marine areas.

Table (14-6)		Coverage of protected areas in relation to marine areas (2016-2020)				
Sub-indicator	2016	2017	2018	2019	2020	Goal by 2030
(a) Marine protected area (km ²)	720	720	720	720	720	-
(b) Coverage of protected areas in relation to marine areas (%)	6.2	6.2	6.2	6.2	6.2	10.0%

Source: Ministry of Environment and Climate Change

Target (14-6): By 2020, prohibit certain forms of fisheries subsidies which contribute to overcapacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation ⁽²⁾

14-6-1 Progress by countries in the degree of implementation of international instruments aiming to combat illegal, unreported and unregulated fishing

Table (14-7)

Progress by countries in the degree of implementation of international instruments aiming to combat illegal, unreported and unregulated fishing (2016-2019)

Indicator	Unit	2016-2019
Qatar's progress in the implementation of international instruments aiming to combat illegal, unreported and unregulated fishing	Text	Qatar's fishing fleet is of a traditional type and operates only in Qatari territorial waters. The State does not have vessels operating outside territorial waters or international waters. In addition, the fishing ports in the country did not receive any fishing vessels operating outside the Qatari territorial waters.

Source: Ministry of Municipality

Target (14.7): By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism

14-7-1 Sustainable fisheries as a proportion of GDP in small island developing states, least developed countries and all countries

Figure (14.5): Sustainable fisheries as a proportion of GDP in small island developing states, least developed countries and all countries (2016-2020)

² Bearing in mind the ongoing WTO negotiations, the Doha Development Agenda and the Hong Kong Ministerial Mandate

Target (14.a): Increase scientific knowledge, develop research capacity and transfer marine technology, taking into account the Intergovernmental Oceanographic Commission Criteria and Guidelines on the Transfer of Marine Technology, in order to improve ocean health and to enhance the contribution of marine biodiversity to the development of developing countries, in particular small island developing States and least developed countries

14.a.1 Proportion of total research budget allocated to research in the field of marine technology.

Data for this indicator is not available.

Target (14-b): Provide access for small-scale artisanal fishers to marine resources and markets

14.b.1 Degree of application of a legal/regulatory/policy/institutional framework which recognizes and protects access rights for small-scale fisheries.

Table (14-8)

Progress made by Qatar in the application of a legal /regulatory/ policy/ institutional framework which recognizes and protects access rights for small-scale fisheries (2016-2019)

Target (14.c): Enhance the conservation and sustainable use of oceans and their resources by implementing international law as reflected in the United Nations Convention on the Law of the Sea, which provides the legal framework for the conservation and sustainable use of oceans and their resources, as recalled in paragraph 158 of "The future we want"

14.c.1 Number of countries making progress in ratifying, accepting and implementing through legal, policy and institutional frameworks, ocean-related instruments that implement international law, as reflected in the United Nations Convention on the Law of the Sea, for the conservation and sustainable use of the oceans and their resources.

Table (14-9)

Number of countries making progress in ratifying, accepting and implementing through legal, policy and institutional frameworks, ocean-related instruments that implement international law, as reflected in the United Nations Convention on the Law of the Sea, for the conservation and sustainable use of the oceans and their resources (2016-2022)*

Sub-indicator	2016-2022	
(a) Score for the implementation of UNCLOS and its two implementing agreements (%) = 1.2 +2.2 +3.2	81.5%	
(b) Score for the ratification of and accession to UNCLOS and its two implementing agreements (%) = 1.1 +2.1 +3.1	100%	
(c) Pursuing a national policy or having a national mechanism as focal point or interagency or interdepartmental team = 1.3 +2.3 + 3.3	66.7%	
(d) Score for the ratification and acceptance of the implementation of agreements = (a) + (b)	83.3%	
Agreement 1: United Nations Convention on the Law of the Sea 1982	1.1 Ratification of UNCLOS (1982) (1=yes, 0=no)	1
	1.2 To what extent has your country implemented this agreement through legal frameworks (e.g., through national legislation or enforcement actions)? Please indicate a score between 1 and 9, with 1 being "not at all" and 9 meaning "fully".	8
	1.3 Does your country have a national ocean policy and/or national institution or other mechanism, such as a national focal point or an interagency or interdepartmental working group, with a responsibility to ensure that ocean space problems are considered through an integrated, multidisciplinary and intersectoral approach? (1=yes, 0=no)	1
Agreement relating to the Implementation of Part XI of the United Nations Convention on the Law of the Sea of 10 December 1982 (1994)	2.1 Agreement relating to the Implementation of Part XI of the United Nations Convention on the Law of the Sea of 10 December 1982 (1994) (1=yes, 0=no)	1
	2.2 To what extent has your country implemented this Agreement through legal frameworks (e.g., through national legislation or enforcement actions)? Please indicate a score between 1 and 9, with 1 being "not at all" and 9 meaning "totally".	8

SDG 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

Target (15.1): By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements

15-1-1 Forest area as a proportion of total land area

Table (15-1) Forest area as a proportion of total land area (2010 and 2015)

Description	Unit	2010	2015	Goal by 2030
(a) Forest area as a proportion of total land area (%)	%	0.06	0.08	Increase
(b) Forest area mangrove area	Km ₂	7	9	Increase
	Hectare	700	900	
(c) Land area Qatar area with islands	Km ₂	11,627.04	11,627.04	-
	Hectare	1162704	1162704	-

Source: Ministry of Environment and Climate Change

15.1.2 Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas, by ecosystem type.

Data for this indicator is not available.

Target (15.2): By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally

15.2.1 Progress towards sustainable forest management.

Data for this indicator is not available.

Target (15.3): By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation-neutral world

15-3-1 Proportion of land that is degraded over total land area.

Figure (15.1): Area of degraded lands by degree of impact (km²) (2005)

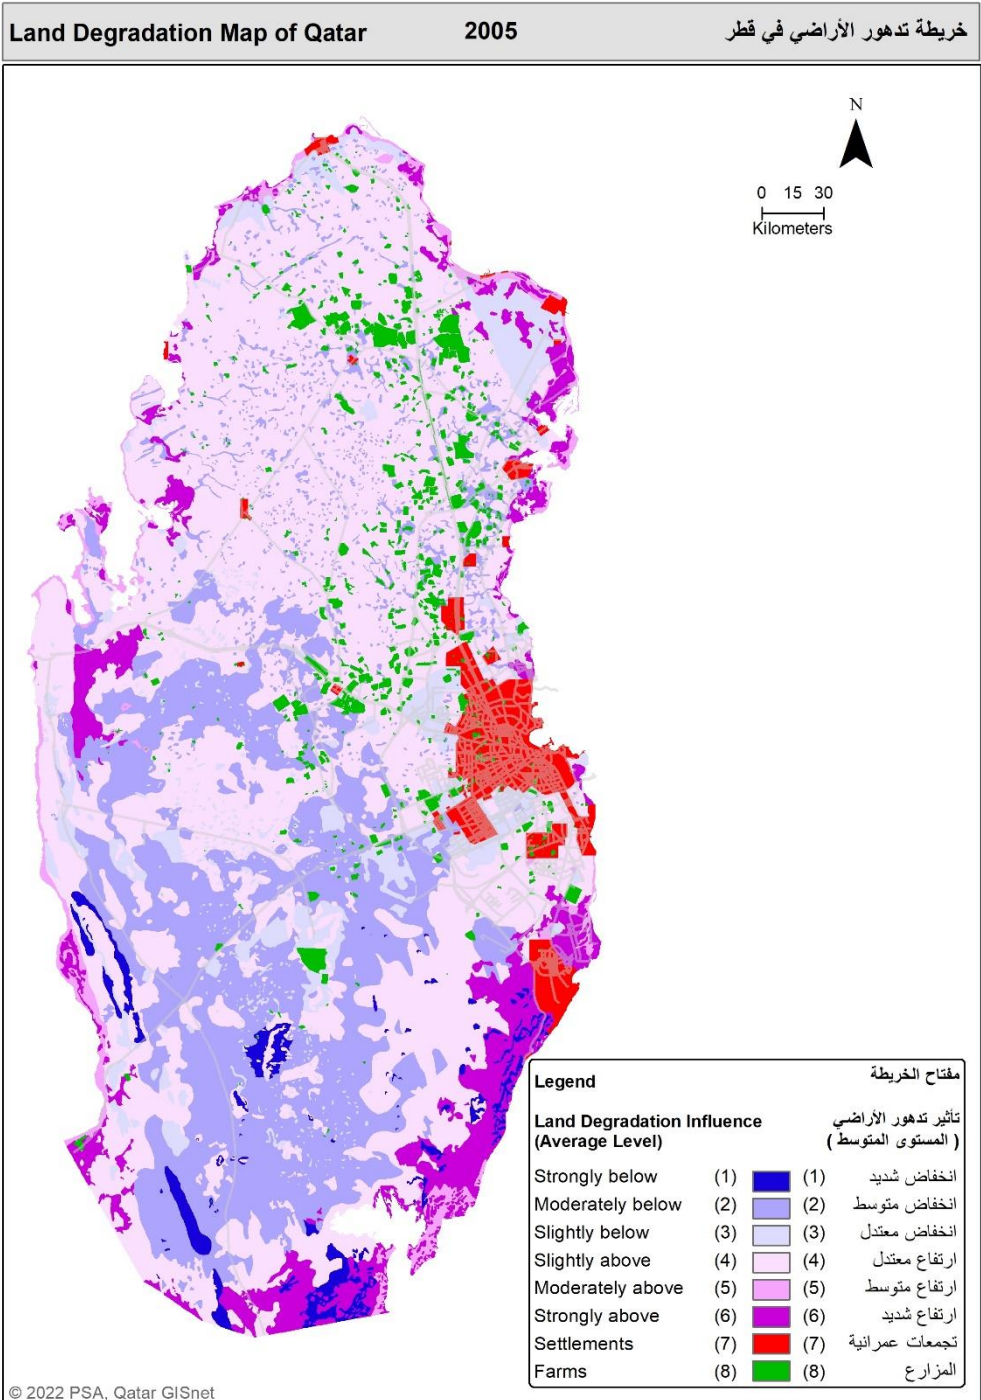

Table (15-2)

Proportion of land that is degraded over total land area (2005)

Description	2005
Indicator	91%

Map (15.1): Land Degradation in the State of Qatar (2005)

Target (15.4): By 2030, ensure the conservation of mountain ecosystems, including their biodiversity, in order to enhance their capacity to provide benefits that are essential for sustainable development

15.4.1 Coverage by protected areas of important sites for mountain biodiversity

This indicator does not apply to the State of Qatar.

15.4.2 (a) Mountain Green Cover Index and (b) proportion of degraded mountain land

This indicator does not apply to the State of Qatar.

Target (15.5): Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species

15.5.1 Red List Index.

Table (15-3)		Red List Index (2016-2017)		
Indicator	2016	2017	Goal by 2030	
Red List Index	0.84	0.83	Reduce	
Red List Index (upper limit)	1	1	-	
Red List Index (lower limit)	0	0	0	

Note: The value in the Red List Index ranges between (0) all species classified as "least concern" and (1) all species classified as "extinct".

Source: Ministry of Environment and Climate Change.

Target (15-6): Promote fair and equitable sharing of the benefits arising from the utilization of genetic resources and promote appropriate access to such resources, as internationally agreed

15-6-1 Number of countries that have adopted legislative, administrative and policy frameworks to ensure fair and equitable sharing of benefits.

Table (15-4)		Adoption of legislative, administrative and policy frameworks to ensure fair and equitable sharing of benefits (2016-2022)						
Indicator	2016	2017	2018	2019	2020	2021	2022	Goal by 2030

Target (15.7): Take urgent action to end poaching and trafficking of protected species of flora and fauna and address both demand and supply of illegal wildlife products

15.7.1 Proportion of traded wildlife that was poached or illicitly trafficked.

Table (15-5) **Proportion of traded wildlife that was poached or illicitly trafficked (2016-2019)**

Description	2016	2017	2018	2019	Goal by 2030	
Traded Wildlife	Licily	4,299	2,840	1,232	989	Increase
	Illicitly	10	3	7	6	-
	Total	4,309	2,843	1,239	995	-
Proportion of traded wildlife that was illicitly trafficked	0.2%	0.1%	0.6%	0.6%	Reduce	

Source: Ministry of Environment and Climate Change and PSA calculations.

Target (15.8): By 2020, introduce measures to prevent the introduction and significantly reduce the impact of invasive alien species on land and water ecosystems and control or eradicate the priority species

15.8.1 Proportion of countries adopting relevant national legislation and adequately resourcing the prevention or control of invasive alien species.

Table (15-6)

Availability of relevant national legislation and adequately resourcing the prevention or control of invasive alien species (2016-2022)

Sub indicator	2016	2017	2018	2019	2020	2021	2022
Legislation, Regulation, Act related to the prevention of introduction and management of Invasive Alien Species (1 = YES, 0 = NO)	1	1	1	1	1	1	1
National Biodiversity Strategy and Action Plan (NBSAP) targets alignment to Aichi Biodiversity target 9 set out in the Strategic Plan for Biodiversity 2011-2020 (1 = yes, 0 = no)	1	1	1	1	1	1	1
Countries with an allocation from the national budget to manage the threat of invasive alien species (1 = YES, 0 = NO)	1	1	1	1	1	1	1

Target (15.9): By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts

15.9.1 (a) Number of countries that have established national targets in accordance with or similar to Aichi Biodiversity Target 2 of the Strategic Plan for Biodiversity 2011–2020 in their national biodiversity strategy and action plans and the progress reported towards these targets; and (b) integration of biodiversity into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting.

Table (15-7)

(a) Number of countries that have established national targets in accordance with or similar to Aichi Biodiversity Target 2 of the Strategic Plan for Biodiversity 2011–2020 in their national biodiversity strategy and action plans and the progress reported towards these targets (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022	Goal by 2030
Number of countries that have established national targets in accordance with or similar to Aichi Biodiversity Target 2 of the Strategic Plan for Biodiversity 2011–2020 in their national biodiversity strategy and action plans (1 = YES, 0 = NO)	1	1	1	1	1	1	1	1

Source: Ministry of Environment and Climate Change

Target (15.a): Mobilize and significantly increase financial resources from all sources to conserve and sustainably use biodiversity and ecosystems

15.a.1 (a) Official development assistance on conservation and sustainable use of biodiversity; and (b) revenue generated and finance mobilized from biodiversity-relevant economic instruments.

Data for this indicator is not available.

Target (15.b): Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation

15.b.1 (a) Official development assistance on conservation and sustainable use of biodiversity; and (b) revenue generated and finance mobilized from biodiversity-relevant economic instruments.

Data for this indicator is not available.

Target (15.c): Enhance global support for efforts to combat poaching and trafficking of protected species, including by increasing the capacity of local communities to pursue sustainable livelihood opportunities

15.c.1 Proportion of traded wildlife that was poached or illicitly trafficked.

Table (15-8)		Proportion of traded wildlife that was poached or illicitly trafficked (2016-2019)				
Description	2016	2017	2018	2019	Goal by 2030

Number of Targets	Number of Indicators
19	24

Indicator Status	
Available	15
Unavailable	8
NA	0
Related to Organizations' Account	1
Total	24

Goal 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

Target (17.1): Strengthen domestic resource mobilization, including through international support to developing countries, to improve domestic capacity for tax and other revenue collection

17-1-1 Total government revenue as a proportion of GDP, by source.

Figure (17.1): Percentage of total government revenue of GDP, by source (2016-2019)

Table (17-1)

Total government revenue as a proportion of GDP, by source (2016-2019)

Sub-indicator	Source	Unit	2016	2017	2018	2019
(a) Total government revenue as a proportion of GDP (%)	Oil revenue		21.0%	20.2%	25.9%	25.3%
	Non-oil revenue	%	4.5%	4.6%	5.2%	6.7%
	Total revenues		25.50%	24.80%	31.20%	31.90%
(b) Total government revenue	Oil and gas revenue	Billion QR	140.7	133	173.13	169.99
		Billion US\$	38.7	36.5	47.6	46.7
	Miscellaneous transfer revenue (non-oil revenue)	Billion QR	30.1	30.3	34.79	44.76
		Billion US\$	8.3	8.3	9.6	12.3
	Total	Billion QR	170.80	163.30	207.92	214.75
		Billion US\$	47.00	44.80	57.20	59.00
Real GDP	Billion QR	669.22	659.20	667.34	672.51	
	Billion US\$	183.9	181.1	183.3	184.8	

Source: Ministry of Finance and Planning and Statistics Authority

17.1.2 Proportion of domestic budget funded by domestic taxes.

Data for this indicator is not available.

Target (17.2): Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance (ODA/GNI) to developing countries and 0.15 to 0.20 per cent of ODA/GNI to least developed countries; ODA providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed countries

17.2.1 Net official development assistance, total and to least developed countries, as a proportion of the Organization for Economic Cooperation and Development (OECD) Development Assistance Committee donors' gross national income (GNI).

Data for this indicator is being provided.

Target (17.3): Mobilize additional financial resources for developing countries from multiple sources

17.3.1 Additional financial resources mobilized for developing countries from multiple sources

Data for this indicator is being provided.

17.3.2 Volume of remittances (in United States dollars) as a proportion of total GDP.

Figure (17.2): Percentage of remittances (in US\$) of total GDP (2016-2020)

Table (17-2) Value of remittances as a proportion of GDP (2016-2020)

Description	2016	2017	2018	2019	2020
Workers' remittances (Million US\$)	12206	12600	11413	11814	10610
GDP in current prices (Million US\$)	151,732	161,099	183,335	175838	146401
Remittances as proportion of GDP (%)	8.04%	7.82%	6.23%	6.72%	7.25%

Source: PSA

Target (17.4): Assist developing countries in attaining long-term debt sustainability through coordinated policies aimed at fostering debt financing, debt relief and debt restructuring, as appropriate, and address the external debt of highly indebted poor countries to reduce debt distress

17-4 Debt service as a proportion of exports of goods and services.

Figure(17.3): Percentage of debt service of exports of goods and services (2016-2020)

Table (17.3) Debt service as a proportion of exports of goods and services (2016-2020)

Description	2016	2017	2018	2019	2020
Debt service costs (Million US\$)	992	3,210	3478	3097	12810
Exports of goods and services (Million US\$)	72,484	85,204	102561	92046	70933
Debt service as a proportion of exports of goods and services (%)	1.4%	3.8%	3.4%	3.4%	18.1%

Source: Ministry of Finance and government data

Target (17.5): Adopt and implement investment promotion regimes for least developed countries

17-5-1 Number of countries that adopt and implement investment promotion regimes for Least Developed Countries

Table (17-4) **Extent of Qatar's adoption and implementation of investment promotion regimes for Least Developed Countries (2016-2022)**

Description	2016	2017	2018	2019	2020	2021	2022
Extent of Qatar's adoption and implementation of investment promotion regimes for Least Developed Countries (1 = Yes, 0 = NO)	1	1	1	1	1	1	1

Target (17-6): Enhance North-South, South-South and triangular regional and international cooperation on and access to science, technology and innovation and enhance knowledge-sharing on mutually agreed terms, including through improved coordination among existing mechanisms, in particular at the United Nations level, and through a global technology facilitation mechanism

17.6.1 Fixed Internet broadband subscriptions per 100 inhabitants, by speed.

Figure (17.4): Fixed Internet broadband subscriptions per 100 population (2016-2021)

Table (17-5) **Internet broadband subscriptions per 100 inhabitants, by speed (2016-2021)**

Sub-indicator	Speed	2016	2017	2018	2019	2020	2021
(a) Percentage of Internet broadband subscriptions per 100 inhabitants, by speed (%)	256 KB/s to less than 2 MB/s	1.1	0.4	0.2	0.1	0.03	0.02
	2 MB/s to less than 10 MB/s	0.5	0.2	0.2	0.1	0.04	0.03
	10 MB/s or more	8.1	8.8	9.3	9.9	10.39	11.3
	Total	9.7	9.4	9.7	10.2	10.45	11.35
(b) Number of Internet broadband subscriptions, by speed	256 KB/s to less than 2 MB/s	28,956	10,997	6,094	4,136	714	481
	2 MB/s to less than 10 MB/s	13,347	5,775	6,016	2,692	1,093	785
	10 MB/s or more	211,415	239,322	255,796	277,851	294,319	310,622
	Total	253,718	256,094	267,906	284,679	296,126	311,888

Source: Ministry of Communications and Information Technology and PSA calculations

Target (17-7): Promote the development, transfer, dissemination and diffusion of environmentally sound technologies to developing countries on favorable terms, including on concessional and preferential terms, as mutually agreed

17.7.1 Total amount of funding for developing countries to promote the development, transfer, dissemination and diffusion of environmentally sound technologies.

Data for this indicator is not available.

Target (17.8): Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular information and communications technology

17-8-1 Proportion of individuals using the Internet.

Figure (17.5): Proportion of individuals using the Internet from administration record data (2016-2021)

Table (17-6)

Proportion of individuals using the Internet (2016-2021)

Sex	Unit	2016	2017	2018	2019	2020	2021
Males	%	96.0%	98.0%	99.5%	100.0%	100.0%	100.0%
Females	%	99.4%	97.0%	99.8%	99.3%	99.3%	99.0%
Total	%	95.0%	97.0%	99.6%	99.6%	99.7%	100.0%

Source: Ministry of Communications and Information Technology

Target (17.9): Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the Sustainable Development Goals, including through North-South, South-South and triangular cooperation

17.9.1 Dollar value of financial and technical assistance (including through North-South, South-South and triangular cooperation) committed to developing countries.

Table (17-7)

Value of Development Assistance for SDG 17 (2016-2020)

Unit	2016	2017	2018	2019	2020
QR	249,922,839	83,977,986	540,500,440	560,320,466	252,100,907

Source: Ministry of Foreign Affairs

Target (17.10): Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda

17.10.1 Worldwide weighted tariff average.

Indicator data is for the organizations' account.

Target (17-11): Significantly increase the exports of developing countries, in particular with a view to doubling the least developed countries' share of global exports by 2020

17.11.1 Developing countries' and least developed countries' share of global exports.

Figure (17.6): Value of Qatari exports of goods and services (containing re-export data (QR million) (2016-2020)

Figure (17.7): Relative distribution of Qatari exports of goods and services (containing re-export data by region (2016-2020)

Table (17-8) **Statistics of Qatari Exports of goods and services (including reexports) (Million QR) (2016-2020)**

Regions	2016	2017	2018	2019	2020	Goal by 2030
GCC countries	24,184	18,361	14,271	11,224	13,717	Increase
Other Arab countries	7,311	7,413	4,420	2,686	1,886	Increase
EU countries	26,359	29,559	34,607	35,018	22,450	Increase
Other European countries	1,138	928	1,081	1,180	1,384	Increase
Asian non-Arab countries	191,873	239,268	302,896	272,489	206,409	Increase
USA	3,149	4,053	4,877	4,562	6,260	Increase
Other American countries	3,230	3,342	3,160	1,780	2,147	Increase
Oceanic countries	1,841	1,817	2,132	1,358	1,261	Increase
Africa and other countries except Arab countries	3,003	2,088	3,171	2,375	1,864	Increase
Companies' exports without specifying the destination	1,755	3,313	2,729	2,376	820	Increase
Total	263,843	310,143	373,343	335,048	258,198	Increase

Note: 2016 was considered the base year to reach the goal

Source: PSA

Target (17.12): Realize timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with World Trade Organization decisions, including by ensuring that preferential rules of origin applicable to imports from least developed countries are transparent and simple, and contribute to facilitating market access

17.12.1 Weighted average tariffs faced by developing countries, least developed countries and small island developing States

Data for this indicator is being provided.

Target (17.13): Enhance global macroeconomic stability, including through policy coordination and policy coherence

17.13.1 Macroeconomic Dashboard

Table (17-9)

Most important indicators to follow macroeconomics (2016-2020)

Description	2016	2017	2018	2019	2020
External sector					
• Current account balance (% of GDP)	-5.5%	4.0%	9.1%	2.4%	2.5%
• Foreign direct investment, net inflows (% of GDP)	-4.7%	-0.4%	-3.1%	-4.1%	...
• Portfolio investment, net (BoP, current US\$)	6,069	9,203	(5,324)	2,179	(12,549)
Real sector and Prices					
• GDP (% annual growth)	(6.20)	6.20	13.80	(4.13)	(17.87)
• Gross capital formation (% annual growth)	22.40	(7.30)	7.10	1.50	(10.40)
• Household final consumption expenditure, etc. (% annual growth)	6.50	3.80	2.10	2.90	10.50
• General government final consumption expenditure (% annual growth)	(10.70)	(5.60)	1.50	8.30	4.40
• Exports of goods and services (% annual growth)	(3.70)	1.30	(1.20)	(2.20)	(1.50)
• Imports of goods and services (% annual growth)	5.20	(3.50)	4.60	1.90	(8.90)
• Inflation, Consumer Price Index (% annual growth)	2.3	0.3	0.1	-0.9	...
Unemployment					
• Unemployment rate (%)	0.1	0.1	0.1	0.1	0.1

Source: PSA

Target (1714): Enhance policy coherence for sustainable development

17.14.1 Number of countries with mechanisms in place to enhance policy coherence of sustainable development

Table (17-10) Number of countries with mechanisms in place to enhance policy coherence of sustainable development (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022
(a) Countries with mechanisms in place to enhance policy coherence of sustainable development (1 = Yes, 0 = NO)	1	1	1	1	1	1	1
(b) Mechanisms in place to enhance policy coherence of sustainable development (%)	100%	100%	100%	100%	100%	100%	100%

Source: Planning and Statistics Authority

Target (17.15): Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development

17.15.1 Extent of use of country-owned results frameworks and planning tools by providers of development cooperation

Data for this indicator is being provided.

Target (17-16): Enhance the Global Partnership for Sustainable Development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the Sustainable Development Goals in all countries, in particular developing countries

17.16.1 Number of countries reporting progress in multi-stakeholder development effectiveness monitoring frameworks that support the achievement of sustainable development goals.

Table (17-11) Number of countries reporting progress in multi-stakeholder development effectiveness monitoring frameworks that support the achievement of sustainable development goals (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022
(a) Progress in multi-stakeholder development effectiveness monitoring frameworks that support the achievement of SDGs (1 = Yes; 0 = No)	1	1	1	1	1	1	1

Table (17-11)

Number of countries reporting progress in multi-stakeholder development effectiveness monitoring frameworks that support the achievement of sustainable development goals (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022
(b) Progress in multi-stakeholder development effectiveness monitoring frameworks that support the achievement of SDGs, service provider (1 = Yes; 0 = No)	1	1	1	1	1	1	1
(c) Progress in multi-stakeholder development effectiveness monitoring frameworks that support the achievement of SDGs, beneficiary (1 = Yes; 0 = No)	1	1	1	1	1	1	1

Source: Planning and Statistics Authority

Target (17.17): Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships

17.17.1 Amount in United States dollars committed to public-private partnerships for infrastructure.

Data for this indicator is not available

Target (17.18): By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to significantly increase the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts

17.18.1 Statistical capacity indicator for Sustainable Development Goal monitoring.

Figure (17.8): Number of SDG indicators by (2022) indicator status

Figure (17.9): SDGs by Indicator Status (2022)

Figure (17.10): Web of SDGs by SDG and indicator status (2022)

17.18.2 Number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics.

Table (17-12)

Countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022	Goal by 2030
(a) Countries have national statistical legislation that complies with the Fundamental Principles of Official Statistics (1 = Yes; 0 = No)	1	1	1	1	1	1	1	1

Source: Planning and Statistics Authority

17.18.3 Number of countries with a national statistical plan that is fully funded and under implementation, by source of funding.

Qatar has developed a national statistical plan that is annually funded from the state budget since 2012 up to date. It is the statistical plan of the Planning and Statistics Authority 2018-2022 on the following link:

<https://www.psa.gov.qa/en/knowledge/Documents/PSAStrategy.pdf>

Table (17-13)

Number of countries with a national statistical plan that is fully funded and under implementation, by source of funding (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022
(a) Countries with national statistical plans with funding from donors (1 = YES; 0 = NO)	0	0	0	0	0	0	0
(b) Countries with national statistical plans with funding from Government (1 = YES; 0 = NO)	1	1	1	1	1	1	1
(c) Countries with national statistical plans with funding from others (1 = YES; 0 = NO)	0	0	0	0	0	0	0
(d) Countries with national statistical plans that are fully funded (1 = YES; 0 = NO)	1	1	1	1	1	1	1
(e) Countries with national statistical plans that are under implementation (1 = YES; 0 = NO)	0	0	0	0	0	0	0

Source: Planning and Statistics Authority

Target (17-19): By 2030, build on existing initiatives to develop measurements of progress on sustainable development that complement gross domestic product, and support statistical capacity-building in developing countries

17.19.1 Dollar value of all resources made available to strengthen statistical capacity in developing countries.

Data for this indicator is being provided.

17.19.2 Proportion of countries that (a) have conducted at least one population and housing census in the last 10 years; and (b) have achieved 100 per cent birth registration and 80 per cent death registration.

Table (17-14)

Proportion of countries that (a) have conducted at least one population and housing census in the last 10 years; and (b) have achieved 100 per cent birth registration and 80 per cent death registration (2016-2022)

Sub-indicator	2016	2017	2018	2019	2020	2021	2022	Goal by 2030
(a) Proportion of countries with birth registration data that are at least 90 percent complete (%)	100%	100%	100%	100%	100%	100%	100%	100%
(b) Countries with birth registration data that are at least 90 percent complete (1 = YES; 0 = NO)	1	1	1	1	1	1	1	1
(c) Proportion of countries that have conducted at least one population and housing census in the last 10 years (%)	100%	100%	100%	100%	100%	100%	100%	100%
(d) Countries that have conducted at least one population and housing census in the last 10 years (1 = YES; 0 = NO)	1	1	1	1	1	1	1	1
(e) Proportion of countries with death registration data that are at least 75 percent complete (%)	100%	100%	100%	100%	100%	100%	100%	100%
(f) Countries with death registration data that are at least 75 percent complete (1 = YES; 0 = NO)	1	1	1	1	1	1	1	1
