H.H. Sheikh Tamim Bin Hamad Al-Thani
Emir of the State of Qatar

Preface

The Ministry of Development Planning and Statistics has the pleasure to introduce the 32nd issue of **“Qatar In Figures”** booklet, comprising key statistical data and indicators for the State of Qatar covering mainly the period 2014 - 2016.

The booklet contains various updated and summarized statistical information covering different aspects of life in the Qatari society whether demographic, social or economic.

For more detailed data about the State of Qatar, interested researchers and officials in all public or private agencies, are advised to visit the MDPS website www.mdps.gov.qa and “QALM” portal (Qatar Information Exchange) www.qalm.gov.qa, one of the Ministry’s tools for the provision of statistical information.

Dr. Saleh bin Mohammed Al Nabit

Minister, Ministry of Development Planning and Statistics

Basic facts

Geography : The State of Qatar is a peninsula situated halfway down the western coast of the Arabian Gulf, bordered to the south by the Kingdom of Saudi Arabia. The coastline is 550 km. long and bounds the country to the west, north and east. With the exception of scattered hill formations in the north west and sand dunes in the south east, Qatar is generally a flat desert terrain.

The state's territory comprises a number of islands. Halul, Shira'wa, Alashat are the main ones. The total land area of Qatar is approximately 11 627.04 square kilometers. Doha is the capital city of the country.

Economic : Qatar is one of the world's most dynamic and fastest growing economies. According to the official figures, the Qatari economy grew by 2.2% in real terms in 2016. Qatar is one of the world's wealthiest nations in terms of per capita GDP in 2016.

Qatar has proven hydrocarbon reserves that can be utilized over the next 100 years, enabling Qatar to offer a uniquely sustainable platform for long term growth and development.

Population : Mid-year population in 2016 is estimated at 2 617 634 with a population density rate of 225 persons per sq.km.

Climate : Qatar has a moderate desert climate with long summers and short mild winters with little rains.

Language and religion : Arabic is the official language, however English is widely spoken. Islam is the official religion of the country.

Qatar National Day : Qatar's National Day is 18th of December.

Qatar National Statistics Day : Qatar's national statistics day is the 6th of December.

Currency : The official currency is the Qatari Riyal (QR), which is divided into 100 dirhams. The exchange parity has been set at the fixed rate of US\$ = 3.65 QRs.

Work Hours :

Public sector : From 7 am to 2 pm. Friday and Saturday are weekend holidays.

Private sector: From 8 am to 12 noon and from 4 pm to 8 pm. Friday is the weekend holiday.

Local Time : Three hours + Greenwich Mean Time

Concepts and definitions

Median Age: The age that divides a population into two groups of the same size such that half the total population is younger than this age, and the other half older

Sex Ratio: The number of males per 100 females in a population.

Ageing Index: The number of persons 65 years old or over per 100 persons under age 15.

Dependency Ratio: A measure showing the number of dependents (age 0-14 and over the age of 65) to total working age population (aged 15-64).

Crude Birth Rate: Number of live births in a year per 1000 mid-year population of the same year.

Crude Death Rate: Number of deaths occurring in a year per 1000 mid-year population of the same year.

Infant Mortality Rate: Number of deaths of infants under one year in a certain year per 1000 live births during the same year.

Under-Five Mortality Rate: Number of deaths of children under-five years of age in a certain year per 1000 live births during the same year.

Natural Increase Rate: The difference between crude birth rate and crude death rate in a certain year.

Marriage Rate: Number of marriages in a year per 1000 mid-year population of the same year.

Divorce Rate: Number of divorces in a year per 1000 mid-year population of the same year.

Total Fertility Rate: The average number of children a woman would bear over the course of her child bearing years (normally 15-49 years).

Life Expectancy At Birth: The average number of years that a newly born child would live under certain conditions.

Labor Force: Number of persons at working age (15 years and above) who are either working (employed) or not working but looking for work and available for work (unemployed).

Labor Force Participation Rate: Number of persons at working age (15 years and above) who are currently in the labor force to the total number of working age population.

Unemployment Rate: Number of unemployed to total number of labor force.

Illiteracy Rate: Number of persons who cannot read or write to mid-year population of a certain age during the same year.

Gross Enrolment Ratio: The ratio of the number of enrolled students at a certain educational level, irrespective of age, to total number of the corresponding official age group entitled to enter that educational level, of mid-year population.

Gross Domestic Product: The total market value of all final goods and services produced in a particular economy in a given year.

Price Index: An indicator measuring changes in the price of a commodity (or a group of commodities) from one period to another.
